INDEX TO VOLUME 88

A

A-MODE ULTRASOUNDS. See Ultrasounds
AAKHUS, TRYGVE. See **VESTBY, GUNNAR W.**
ABDOMEN
See also Angiography; Pregnancy; Urography; under individual organs as Adrenals; Stomach; Venae Cavae; etc.
blood supply. See Angiography; and under individual blood vessels, as Aorta; Arteries, mesenteric; Renal Arteries
calcifications
—calcified portal vein thromboemboli in newborn and stillborn infants, William A. Blanc, Walter E. Berdon, David H. Baker, and H. Joachim Wigger, **88:** 287, 1967
diseases
—diagnostic problems in retroperitoneal disease. UCLA Interdepartmental Conference (ab), William E. Goodwin, mod., **88:** 622, 1967
—hepatic angle in roentgen evaluation of peritoneal fluid, Milton Margulies and Leonard Stoane, **88:** 51, 1967
—radioisotope photoscan of liver in differential diagnosis of upper abdominal disease: review of 232 cases (ab), William W. Shingleton et al, **88:** 206, 1967
fibrosis
—lymphangiography in diagnosis of retroperitoneal fibrosis; case report (ab), Joseph J. Bookstein et al, **88:** 405, 1967
—retroperitoneal fibrosis (ab), Jüri Kaude, **88:** 404, 1967
—retroperitoneal fibrosis and methysergide: report of 3 cases, Gerald J. Gelford, Arthur J. Wilets, Donald Nelson, and Larry L. Kroll, **88:** 976, 1967
hemorrhage in. See Hemorrhage
lymph nodes. See Lymph Nodes; Lymphography
roentgenography. See also other subheads under Abdomen
—diagnosis of suprarenal mass lesions by retroperitoneal gas studies and arteriography (ab), Erich K. Lang et al, **88:** 1048, 1967
—tomographic exploration of abdominal viscera by combined pneumoperitoneum and retropneumoperitoneum (ab), C. Guien et al, **88:** 1209, 1967
tumors
—factors producing spurious obstruction of inferior vena cava in infants and children with abdominal tumors, Walter E. Berdon, David H. Baker and Thomas V. Santulli, **88:** 111, 1967
wounds and injuries
—pelvic fracture and associated soft-tissue trauma, Milton R. Gilchrist and Donald H. Peterson, **88:** 278, 1967
—roentgenologic evaluation of abdominal trauma (ab), James F. Nelson, **88:** 829, 1967
ABNORMALITIES AND DEFORMITIES
See also Brachmann-de Lange Syndrome; Heredity; Monsters; under organs and regions, as Extremities, abnormalities; Face, abnormalities; Heart, abnormalities; etc.
—mental retardation with osteocartilaginous anomalies (ab), Grange S. Coffin et al, **88:** 832, 1967
—roentgenology of median cleft face syndrome, Gerald J. Kurlander, William DeMyer, and John A. Campbell, **88:** 473, 1967
—Silver syndrome: congenital asymmetry, short stature and variations in sexual development: roentgen features (ab), John E. Moseley et al, **88:** 188, 1967
ABRAMS, HERBERT L. See **FABIAN, CARL E.**
——See **GYEPES, MICHAEL T.**
ABSCESS
See also under organs and regions, as Kidneys, abscess
—bacterial metastasis following B.C.G. vaccination (ab), Alf Wallerström and Herbert Enell, **88:** 1036, 1967
subdiaphragmatic. See Abscess, subphrenic
subphrenic
—hepatic scintiscanning: promising diagnostic procedure in liver trauma and subdiaphragmatic abscess, John A. Burdine, Jr., and Charles A. Hill, **88:** 1131, 1967
—lung-liver radioisotope scans in diagnosis of subdiaphragmatic abscess (ab), Donald W. Brown, **88:** 1057, 1967
ACETYLCHOLINESTERASE
—inhibition of acetylcholinesterase by some organic contrast media: preliminary communication (ab), Elliott C. Lasser and Joseph H. Lang, **88:** 197, 1967
ACHONDROPLASIA
See also Dyschondroplasia
—asphyxiating thoracic dystrophy of the newborn (ab), Tugrul Pirnar and E. B. D. Neuhauser, **88:** 1185, 1967
ACHORD, JAMES L., and GERLE, RICHARD D.: Bone lesions in pancreatitis (ab), **88:** 404, 1967
ACID
para-amino-hippuric. See Kidneys, function tests
tannic. See Tannic Acid
ACKERMAN, LAUREN V. See **PEREZ, CARLOS A.**
ACROCEPHALOSYNDACTYLY. See Acrocephaly
ACROCEPHALY
—Carpenter's syndrome: acrocephalopolysyndactyly: autosomal recessive syndrome (ab), Samia A. Temtamy, **88:** 1208, 1967
—progressive synosteosis in Apert's syndrome (acrocephalosyndactyly), with description of roentgenographic changes in feet (ab), Edward W. Schauerte and Paul M. St-Aubin, **88:** 191, 1967
ACROMEGALY
—fallibility of heel-pad thickness in diagnosis of acromegaly, S. E. Puckette, Jr., and E. Quitman Seymour, **88:** 982, 1967
—sesamoid index: an aid in diagnosis of acromegaly (ab), David L. Kleinberg et al, **88:** 190, 1967
ACTINOMYCOSIS
—angiographic findings in intracranial actinomycosis: case report and consideration of pathogenesis, G. Ingmar Wickbom and Alan J. Davidson, **88:** 536, 1967
ADAMS, JOEL E.: Little League shoulder: osteochondrosis of the proximal humeral epiphysis in boy baseball pitchers (ab), **88:** 623, 1967
ADAMS, RALPH. See **KROHN, LEON**
ADAMS, ROBERT M. See **WALL, JOHN A.**
ADELMAN, A. G., CHERTKOW, G., and HAYTON, R. C.: Familial fibrocystic pulmonary dysplasia: a detailed family study (ab), **88:** 1022, 1967
ADELSTEIN, S. J. See **POTCHEN, E. J.**
ADENOMA. See Pituitary Body, tumors; Sella Turcica; Thyroid, tumors
ADI. See Atlas and Axis
ADRENAL PREPARATIONS
See also Adrenocortical Preparations
—epinephrine effect in angiography of gastrointestinal tract tumors, Paul C. Kahn, William J. Frates, and Robert E. Paul, Jr., **88:** 686, 1967
—renal hamartoma (angiomyolipoma): its angiographic appearance and response to intra-arterial epinephrine, Peter J. Palmisano, **88:** 249, 1967
ADRENALS
See also Adrenal Preparations; Adrenocortical Preparations; Cushing Syndrome
—transdiaphragmatic herniation of suprarenal fat simulating a posterior gutter tumor mass (ab), R. Israel-Asselain et al, **88:** 393, 1967
tumors
—angiography of pheochromocytoma (ab), Erik Boijsen et al, **88:** 1048, 1967
—bone and microcirculatory changes in child with benign pheochromocytoma, Melvin H. Becker, Walter Redisch, and Edward J. Messina, **88:** 487, 1967
—diagnosis of suprarenal mass lesions by retroperitoneal gas studies and arteriography (ab), Erich K. Lang et al, **88:** 1048, 1967
—place of arteriography in diagnosis of pheochromocytoma (ab), J. Ecoiffier et al, **88:** 1049, 1967
—radiation-induced adrenal medullary tumors in the rat (ab), Shields Warren et al, **88:** 855, 1967
—radiologic and clinical evaluation of pheochromocytoma in children: report of 6 cases, Alfred L. Weber, Murray L. Janower, and N. Thorne Griscom, **88:** 117, 1967
ADRENOCORTICAL PREPARATIONS
See also Adrenal Preparations
—osteoarthropathies in Cushing syndrome and after steroid therapy (ab), H. Ellegast, **88:** 186, 1967
ADYNOWSKA, S. See **ZGLICZYNSKI, S. L.**
AGAMMAGLOBULINEMIA. See Gamma Globulin
AGE and AGING
See also Menopause; Old Age
—coronary angiographic findings in correlation with age, body weight, blood pressure, serum lipids, and smoking habits (ab), Kim Cramér et al, **88:** 395, 1967
AGEE, O. FRANK, and GREER, MELVIN: Anomalous cephalic venous drainage in association with aneurysm of the great vein of Galen, **88:** 725, 1967
AHLBERG, N. E., BARTLEY, O., CHIDEKEL, N., and FRITJOFSSON, A.: Phlebography in varicocele scroti (ab), **88:** 1047, 1967
AINSWORTH, E. J., and LEONG, G. F.: Recovery from radiation injury in dogs as evaluated by the split-dose technique (ab), **88:** 855, 1967
——See **HANKS, G. E.**
AIR
as contrast medium. See Brain, roentgenography; Gas; Pneumography; Spine, diseases; etc.
AKDAMAR, KEMAL. See **DeMASI, CLEMENT J.**
AKSOY, MUZAFFER, CAMLI, NECDET, and ERDEM, SAKIR: Roentgenographic bone changes in chronic iron deficiency anemia: a study in 12 patients (ab), **88:** 188, 1967
ALBUMIN. See Blood, proteins
ALCANTARA, R. See **CELIS, A.**
ALCOHOLISM
—renal papillary necrosis with special reference to chronic alcoholism: report of 20 cases (ab), Hugh A. Edmondson et al, **88:** 839, 1967
ALDERS, MARJORIE. See **HENDEE, WILLIAM R.**
ALDRIDGE, H. E. See **BIGELOW, W. G.**
ALEXANDER, JAMES K. See **FRED, HERBERT L.**
ALEXANDER, LESLIE L. See **CAMIEL, MORTIMER R.**
ALISON, F. See **FAURÉ, C.**
ALLEGRETTI, NIKSA. See **VITALE, BRANKO**
ALLEN, A. See **SCHWARTZ, S.**
ALLEN, WILLIAM R.: Ignorance, experimentation, tragedy: radiation injury to the hand (ab), **88:** 1060, 1967
ALLOXAN. See Radiobiology, endocrine studies

ALMOND, CARL H. See **RINKER, CARL T.**
——See **TEMPLETON, ARCH W.**
ALMOND, P. R., WRIGHT, A. E., and BOONE, M. L. M.: High-energy electron dose perturbations in regions of tissue heterogeneity. Part II: Physical models of tissue heterogeneities, **88:** 1146, 1967
ALPERT, MEYER. See **AMBROSE, GEORGE B.**
ALTEMEIER, WILLIAM A. See **BOYD, ARTHUR D.**
ALVEOLAR-CELL TUMORS. See Lungs, tumors
ALVEOLI. See Lungs
ALVEOLITIS. See Lungs, diseases
AMBERG, JOHN R.: Cholestanol-induced gallstones: radiologic observations, **88:** 584, 1967
AMBROSE, GEORGE B., ALPERT, MEYER, and NEER, CHARLES S.: Vertebral osteomyelitis: a diagnostic problem (ab), **88:** 837, 1967
AMEBIASIS
—thoracic repercussions of amebiasis (ab), Rodolfo Herrera-Llerandi, **88:** 819, 1967
—toxic dilatation of colon in case of amebiasis (ab), Lawrence D. Wruble et al, **88:** 1199, 1967
AMERICAN ASSOCIATION OF PHYSICISTS IN MEDICINE
—symposium on high-energy radiation-therapy dosimetry, **88:** 596, 1967
AMERICAN BOARD OF RADIOLOGY, 88: 595, 1967
AMERICAN CANCER SOCIETY, KANSAS DIVISION, 88: 162, 1967
AMERICAN COLLEGE OF RADIOLOGY
—American College of Radiology awards gold medals, **88:** 809, 1967
AMERICAN COLLEGE OF RADIOLOGY FOUNDATION
—American Institute of Radiology: interim report 1966 (ed), Maxwell H. Poppel, **88:** 157, 1967
AMERICAN INSTITUTE OF RADIOLOGY
—American Institute of Radiology: interim report 1966 (ed), Maxwell H. Poppel, **88:** 157, 1967
AMERICAN REGISTRY OF RADIOLOGIC PATHOLOGY, 88: 162, 1967
AMERICIUM
radioactive. See Radioamericium
AMINOPHYLLINE. See Biliary Tract
AMNIOTIC FLUID
—amniotic fluid studies by isotope dilution and scanning (ab), Richard P. Spencer et al, **88:** 848, 1967
AMPLATZ, KURT. See **HILAL, SADEK K.**
——See **WILSON, WILLIAM J.**
AMSTUTZ, HARLAN C., and CAREY, EDWARD J.: Skeletal manifestations and treatment of Gaucher's disease: review of 20 cases (ab), **88:** 409, 1967
AMUNDSEN, PER, and GRIMSRUD, OLE K.: Height of fourth ventricle in normal encephalograms (ab), **88:** 387, 1967
——See **KUBIN, DORIS A.**
ANABTAWI, ISAM N. See **TEMPLE, T. EUGENE, JR.**
ANALOG RATEMETER. See Scans and Scanning
ANAPHYLAXIS and ALLERGY
—influence of x irradiation on experimental allergic encephalomyelitis in rats (ab), Branko Vitale et al, **88:** 639, 1967
ANASTOMOSES. See Pulmonary Arteries
ANDERSON, E. EVERETT, and WILSON, RICHARD E.: Radioisotope renography and radioscintillation scanning in the diagnosis of homograft rejection (ab), **88:** 419, 1967
ANDERSON, FRANK M., and LANDING, BENJAMIN H.: Cerebral arachnoid cysts in infants (ab), **88:** 1181, 1967
ANDERSON, J. B., SHIMMINS, J., and SMITH, D. A.: New technique for the measurement of metacarpal density (ab), **88:** 405, 1967
ANDERSON, MILTON W. See **DINES, DAVID E.**
ANDERSON, PAGE A. W. See **LEVIN, AARON R.**
ANDREWS, G. A. See **KNISELEY, R. M.**
ANDROGENS
—osseous xanthomatosis and pathologic fractures in familial hyperlipidemia (hyperglyceridemia); observations during chlorophenoxyisobutyrate, estrogen and androgen therapy (ab), Osvaldo J. Brusco et al, **88:** 188, 1967
—testosterone-potentiated P^{32} therapy in prostatic carcinoma (ab), Robert M. Donati et al, **88:** 850, 1967
ANEMIA
hypochromic
—roentgenographic bone changes in chronic iron deficiency anemia; study in 12 patients (ab), Muzaffer Aksoy et al, **88:** 188, 1967
iron-deficiency. See Anemia, hypochromic
macrocytic
—cobalt-57-labeled vitamin B_{12} plasma levels for differential diagnosis of macrocytic anemias (ab), Joseph B. Workman and Edward Rusche, **88:** 846, 1967
sickle-cell
—re-evaluation of "fish vertebra" sign in sickle cell hemoglobinopathy (ab), Jack Reynolds, **88:** 625, 1967
—roentgenological features of sickle-cell disease and related hemoglobinopathies (bk rev), Jack Reynolds, **88:** 164, 1967
splenic
—skeletal manifestations and treatment of Gaucher's disease; review of 20 cases (ab), Harlan C. Amstutz and Edward J. Carey, **88:** 409, 1967
ANENCEPHALY. See Brain, absence; Monsters
ANESTHESIA
—thiopental anesthesia and tannic acid diagnostic enemas (ab), Jasbir Singh and Eldon M. Boyd, **88:** 1033, 1967
ANEURYSM
aortic
—aneurysm of ascending aorta causing obstruction of left pulmonary artery (ab), A. Griswold Bevin et al, **88:** 617, 1967
—aorticoatrial shunt due to rupture of dissecting aneurysm of ascending aorta (ab), T. Eugene Temple, Jr., et al, **88:** 617, 1967
—kinking or buckling of aorta; case report with complication of aneurysm formation (ab), A. Franklin Turner et al, **88:** 397, 1967
—painless chronic dissecting aneurysm of aorta: case (ab), Israel Steinberg and Harry L. Stein, **88:** 397, 1967
—reflux aortography combined with Valsalva maneuver in diagnosis of abdominal aortic aneurysms (ab), Marvin J. Friedenberg and Tom W. Staple, **88:** 397, 1967
arteriovenous. See Fistula, arteriovenous
cardiac
—angiocardiographic findings in ventricular aneurysm due to arteriosclerotic myocardial infarction; report of 11 cases (ab), Israel Steinberg, **88:** 176, 1967
—idiopathic panaortitis, supra-aortic arteritis, granulomatous myocarditis and pericarditis: cause of pulseless disease and possibly left ventricular aneurysm in the African (ab), William C. Roberts and Ernest A. Wibin, **88:** 825, 1967
—roentgen diagnosis of left ventricular aneurysm (ab), Lars Björk, **88:** 176, 1967
carotid
—angiographic end-results of carotid ligation in treatment of carotid aneurysm (ab), Fredric M. Somach and Henry A. Shenkin, **88:** 169, 1967
celiac
—hepatic- and celiac-artery aneurysms (ab), William R. Sweetman and Marvin J. Weinstein, **88:** 827, 1967
cerebral
—anomalous cephalic venous drainage in association with aneurysm of great vein of Galen, O. Frank Agee and Melvin Greer, **88:** 725, 1967
—cerebral arterial ectasia with saccular aneurysms, Sidney Wallace and Marvin E. Jaffe, **88:** 90, 1967
coronary
—coronary aneurysm with perforation into right ventricle (ab), K. Bock and M. Herbst, **88:** 176, 1967
hepatic
—hepatic- and celiac-artery aneurysms (ab), William R. Sweetman and Marvin J. Weinstein, **88:** 827, 1967
intracranial
—report on co-operative study of intracranial aneurysms and subarachnoid hemorrhage. Section IV: Cerebral angiography: analysis of diagnostic value and complications of carotid and vertebral angiography in 5,484 patients (ab), George Perret and Hiro Nishioka, **88:** 386, 1967
—report on co-operative study of intracranial aneurysms and subarachnoid hemorrhage. Section V, part I: Natural history of subarachnoid hemorrhage, intracranial aneurysms and arteriovenous malformations, based on 6,368 cases (ab), Herbert B. Locksley, **88:** 602, 1967
rupture. See Aneurysm, aortic
temporal
—superficial temporal artery aneurysms, Ernest J. Ferris, Jerome H. Shapiro, David A. Roth, and Benjamin Bub, **88:** 268, 1967
vertebral
—cerebral arterial ectasia with saccular aneurysms, Sidney Wallace and Marvin E. Jaffe, **88:** 90, 1967
ANEURYSMAL BONE CYSTS. See Spine, cysts
ANGER, H. See **FAWWAZ, R. A.**
ANGER POSITRON CAMERA. See Cameras
ANGINA PECTORIS
—internal mammary artery implantation for angina pectoris: angiographic evaluation of Beck and Vineberg procedures (ab), Viking Olov Björk and Lars Björk, **88:** 824, 1967
—selective cine coronary arteriography; correlation with clinical findings in 1,000 patients (ab), William L. Proudfit et al, **88:** 395, 1967
—selective coronary arteriography: arteriographic patterns in coronary heart disease (ab), John O. Parker et al, **88:** 826, 1967
ANGIOCARDIOGRAPHY
See also Heart; Aneurysm, cardiac; Angiography
—fellowships in cardiac and vascular radiology, **88:** 596, 1967
—quantitative angiocardiography. I. Normal left ventricle in man (ab), J. Ward Kennedy et al, **88:** 614, 1967
complications
—hemodynamic changes attending angiocardiography, J. David Bristow, George A. Porter, Frank E. Kloster, and Herbert E. Griswold, **88:** 939, 1967
technic
—assessment of mitral valve lesions with cine levoangiocardiography (ab), J. E. Whitley et al, **88:** 178, 1967
—diagnosis of pericardial effusion by intravenous atriography (ab), Roger Pyle, **88:** 1191, 1967
ANGIOGRAPHY
See also Adrenals, tumors; Angiocardiography; Aortography; Arteries, femoral; Arteries, phrenic; Brain, blood supply; Coronary Vessels; Embolism; Extremities, blood supply; Fistula, arteriovenous; Kidneys, wounds and injuries; Pulmonary Arteries; Pulseless Disease; Renal Arteries; Thrombosis, aortic; Veins, iliac; etc.
—angiographic study of angiosarcomas (ab), M. Collard et al, **88:** 1195, 1967

ANGIOGRAPHY—*cont.*
—angiography in tumor diagnosis and management: review of 93 cases (ab), Carlos M. Chavez and James D. Hardy, **88:** 197, 1967
—arteriography: principles and techniques, emphasizing its application in community hospital practice (bk rev), Joseph L. Curry and Willard J. Howland, **88:** 1014, 1967
—indications for selective supplementary angiographic examination in lymphography (ab), T. de Roo and A. E. van Voorthuisen, **88:** 827, 1967
—phlebography in varicocele scroti (ab), N. E. Ahlberg et al, **88:** 1047, 1967
—practice of angiography (bk rev), J. Écoiffier, **88:** 597, 1967
—total large vessel angiography in selection of patients for direct arterial surgery (ab), John M. Riley et al, **88:** 396, 1967
apparatus and equipment
—lumen-following safety J-guide for catheterization of tortuous vessels, Melvin P. Judkins, Harold J. Kidd, Louis H. Frische, and Charles T. Dotter, **88:** 1127, 1967
complications
—brachial plexus injury following axillary artery puncture: further comments on management, S. Dudrick, W. Masland and M. Mishkin, **88:** 271, 1967
—effect of renal angiography on normal kidney (ab), J. D. Bower et al, **88:** 1044, 1967
—electrocardiographic changes during selective coronary cineangiography (ab), Rex N. MacAlpin et al, **88:** 1192, 1967
—experience with femoral arteriography in diabetic peripheral vascular disease (ab), Carl S. Hoar, Jr., et al, **88:** 1194, 1967
—hemodynamic and electrocardiographic effects of selective coronary angiography in man (ab), Alberto Benchimol and Edward M. McNally, **88:** 395, 1967
—petechiae following angiography: evidence for increased capillary permeability, Hugh S. Levin, Paul H. McDermott, Vincent Runco, Anthony J. Carnazzo, and Richard W. Booth, **88:** 253, 1967
—prevention and treatment (intensive care) of complications following arteriography, Erich K. Lang, **88:** 950, 1967
—report on co-operative study of intracranial aneurysms and subarachnoid hemorrhage. Section IV: Cerebral angiography; analysis of diagnostic value and complications of carotid and vertebral angiography in 5,484 patients (ab), George Perret and Hiro Nishioka, **88:** 386, 1967
—spinal cord injury as complication of contrast angiography (ab), Duncan A. Killen and John H. Foster, **88:** 411, 1967
—technical puncture complications in carotid angiography (ab), Herman Lodin and Hans Georg Ottander, **88:** 1182, 1967
technic
—angiographic investigation of patients with transient ischemic attacks (ab), Edmund H. Burrows and John Marshall, **88:** 386, 1967
—arteriographic explorations of arteriovenous aneurysms of spinal cord (ab), R. Djindjian et al, **88:** 193, 1967
—diagnosis of carcinomas of body and tail of pancreas by arteriography (ab), H. Ludin et al, **88:** 1200, 1967
—microangiographic studies on changes in cerebral vessels after irradiation. I. Lesions in rabbit produced by Co^{60} γ-rays, 195 kV and 34 MV roentgen rays (ab), O. Hassler and A. Movin, **88:** 639, 1967; II. Proton beam lesions in the rat (ab), O. Hassler, **88:** 1062, 1967
—peripheral ciné arteriography, Michael T. Gyepes and Herbert L. Abrams, **88:** 736, 1967
—possibilities of angiography during temporary occlusion of aorta in man (ab), Björn Nordenström and Gunnar Törnell **88:** 398, 1967
—radionuclide venography using 99m pertechnetate and gamma-ray scintillation camera (ab), Leonard Rosenthall, **88:** 850, 1967
—renal hamartoma (angiomyolipoma): its angiographic appearance and response to intra-arterial epinephrine, Peter J. Palmisano, **88:** 249, 1967
—roentgen hemodynamics in bilateral aortoiliofemoral arteriography by unilateral percutaneous femoral artery needle injection (ab), Marvin J. Friedenberg and Tom W. Staple, **88:** 400, 1967
—selective angiography of inferior phrenic arteries, Paul C. Kahn, **88:** 1, 1967
—selective visceral angiography using percutaneous axillary technic (ab), Erik Boijsen, **88:** 400, 1967
—subclavian and internal mammary angiography in evaluation of anterior mediastinal masses (ab), Erik Boijsen and Stewart Reuter, **88:** 1184, 1967
—technic of renal phlebography through left spermatic vein: aid to management of renal carcinoma (ab), E. Proca, **88:** 1207, 1967
—total large vessel angiography in selection of patients for direct arterial surgery (ab), John M. Riley et al, **88:** 396, 1967
—use of Priscoline (tolazoline) in peripheral arteriography, J. Bruce Jacobs and William N. Hanafee, **88:** 957, 1967
—vertebral angiography with aid of femoral catheter (ab), W. Braun et al, **88:** 387, 1967
ANGIOMA. See Tumors, angioma
ANGIOMYOLIPOMA. See Tumors, lipoma
ANGIOSARCOMA. See Tumors, angiosarcoma
ANOUTY, ISSAM. See **DUCHARME, JACQUES-CHARLES**
ANSPACH, WILLIAM EARL (obit), **88:** 1008, 1967
ANTIBIOTICS
—roentgen diagnosis of Whipple's disease (intestinal lipodystrophy), with emphasis on improvement following antibiotic therapy, Reed P. Rice, Walter M. Roufail, and Robert J. Reeves, **88:** 295, 1967
ANTICOAGULANTS
—pseudotumors of kidney secondary to anticoagulant therapy, Chongdee Sukthomya and Bertram Levin, **88:** 701, 1967
ANTIDIURETICS. See Diuresis and Diuretics
ANTIGENS AND ANTIBODIES
—thyroid antibodies in euthyroid subjects after iodine-131 therapy (ab), J. Einhorn et al, **88:** 418, 1967
ANTISCATTER GRIDS. See Roentgen Rays, technic
AORTA
—"aortoiliac steal" syndrome (ab), Samuel L. Kountz et al, **88:** 180, 1967
abnormalities
—aortic hypoplasia combined with coarctation of thoracic and lumbar aorta (ab), E. Boijsen and G. P. Larini, **88:** 397, 1967
—kinking of aortic arch (pseudocoarctation); clinical, radiographic, hemodynamic, and angiographic findings in 8 cases, William K. Nasser and Charles Helmen (ab), **88:** 179, 1967
—kinking or buckling of aorta; case report with complication of aneurysm formation (ab), A. Franklin Turner et al, **88:** 397, 1967
—radiologic and angiocardiographic findings in complete transposition of great vessels with left ventricular outflow tract obstruction, R. M. Shaher, C. A. F. Moes, and G. Khoury, **88:** 1092, 1967
—right aortic arch: plain film diagnosis and significance (ab), James R. Stewart et al, **88:** 398, 1967
—roentgenologic findings in conditions of ascending aorta simulating aortic valvular insufficiency (ab), Larry P. Elliott and Robert S. Eliot, **88:** 396, 1967
—syndrome of double inlet left ventricle: angiocardiographic differentiation from single ventricle with rudimentary outlet chamber (ab), Ali Mehrizi et al, **88:** 823, 1967
—Taussig-Bing complex with pulmonary stenosis (ab), Francisco Navarro Lopez et al, **88:** 615, 1967
anatomy
—arch aortography and cerebrovascular insufficiency (ab), David Sutton and E. Rhys Davies, **88:** 1181, 1967
aneurysm. See Aneurysm, aortic
coarctation. See Aorta, stricture
dilatation
—dilatation of aorta and pulmonary artery with aortic and pulmonary insufficiency in presence of ventricular septal defect and infundibular pulmonic stenosis, David Nathan et al, **88:** 825, 1967
inflammation. See Pulseless Disease
obstruction
—pattern of aorto-iliac occlusion (ab), J. Kennedy Watt, **88:** 1193, 1967
—possibilities of angiography during temporary occlusion of aorta in man (ab), Björn Nordenström and Gunnar Törnell **88:** 398, 1967
roentgenography. See Aortography
rupture
—traumatic rupture of thoracic aorta (ab), William Molnar and William G. Pace, **88:** 825, 1967
stricture
—aortic hypoplasia combined with coarctation of thoracic and lumbar aorta (ab), E. Boijsen and G. P. Larini, **88:** 397, 1967

gastric
—emphysematous gastritis associated with adenocarcinoma of stomach (ab), Thomas J. Smith, **88:** 183, 1967
pulmonary
—accuracy of roentgenologic diagnosis of chronic pulmonary emphysema (ab), Ted M. Nicklaus et al, **88:** 173, 1967
—angiographic findings in 4 cases of infantile lobar emphysema (ab), Tom W. Staple et al, **88:** 173, 1967
—atresia of bronchus to apical-posterior segment of left upper lobe (ab), Thomas S. Curry, III, and George C. Curry, **88:** 1185, 1967
—bilateral emphysema in the premature (Wilson-Mikity syndrome) (ab), C. Fauré et al, **88:** 1022, 1967
—disruption of chest wall closure following thoracotomy (ab), Arthur D. Boyd et al, **88:** 608, 1967
—hyperlucent lung, problem in differential diagnosis (ab), Morris M. Culiner, **88:** 391, 1967
—infantile lobar emphysema: report of 2 cases with unusual roentgenographic manifestation (ab), E. A. Franken, Jr., and Isabelle Buehl, **88:** 1186, 1967
—pulmonary hyperaeration: helpful differential sign in infants with congenital heart disease (ab), Arch W. Templeton and James L. Lehr, **88:** 391, 1967
—radiologic contributions to nosology of obstructive lung disease entities (ab), Mauricio J. Dulfano and John Hewetson, **88:** 1020, 1967
—regional distribution of pulmonary arterial blood flow in emphysema (ab), Vincent Lopez-Majano et al, **88:** 636, 1967
EMPYEMA
subdural
—pseudo-subdural hematoma, Ernest J. Ferris, Harold Lehrer, and Jerome H. Shapiro, **88:** 75, 1967
ENCEPHALITIS. See Encephalomyelitis; Meningoencephalitis
ENCEPHALOGRAPHY, GAMMA. See Brain
ENCEPHALOMYELITIS
—influence of x irradiation on experimental allergic encephalomyelitis in rats (ab), Branko Vitale et al, **88:** 639, 1967
ENDOCARDIAL CUSHION DEFECT. See Heart, abnormalities
ENDOCRINE GLANDS. See Hormones; under names of glands
ENDOMETRIOSIS
—intestinal endometriosis (ab), Bengt Lilja and Frans Probst, **88:** 1033, 1967
ENDOMETRIUM. See Uterus, Cancer
ENDORADIOTHERAPY. See Tumors, radiotherapy
ENDOTOXIN
—measurement of intravascular erythrocyte sequestration by Cr^{51}: effect of endotoxin in dogs and clinical status, extracorporeal circulation and rapid sampling in man (ab), Paul H. Sherman et al, **88:** 635, 1967
ENELL, HERBERT. See **WALLERSTRÖM, ALF**
ENEMAS. See Intestines, roentgenography
ENVIRONMENT
—environmental hazards: ionizing radiation (ab), John B. Little, **88:** 1214, 1967
ENZYMES
See also Acetylcholinesterase, Blood, enzymes; Disaccharidase; Hydrogenase; Urine, enzymes
—effect of irradiation on fine structure and enzymes of dog pancreas. I. Short-term studies (ab), Bruno W. Volk et al, **88:** 207, 1967
—protons and space travel (ab), V. Dalrymple et al, **88:** 421, 1967
EOSINOPHILIA. See Eosinophils
EOSINOPHILS
See also Granuloma, eosinophilic
—rheumatoid lung disease with cavitary nodules, pneumothorax and eosinophilia (ab), M. M. Portner and W. A. Gracie, Jr., **88:** 1023, 1967
EPENDYMOMA. See Tumors, ependymoma
EPIDERMOLYSIS BULLOSA
—turnover of I^{131}-labeled fibrinogen in man; studies in normal subjects, in congenital coagulation factor deficiency states, in liver cirrhosis, in polycythemia vera and in epidermolysis bullosa (ab), B. Blombäck et al, **88:** 205, 1967
EPILEPSY
complications and sequels
—postictal pulmonary edema (ab), Robert W. Huff and Herbert L. Fred, **88:** 392, 1967
EPINEPHRINE. See Adrenal Preparations
EPIPHYSES
—combined metaphyseal and epiphyseal dysostosis; report of two cases—one, in which metaphyseal changes predominate, and a second one, in which epiphyseal changes are more marked (ab), K. Kozlowski and A. Buszinska, **88:** 406, 1967
—dysplasia epiphysealis hemimelica: report of 15 cases (ab), Donald B. Kettelkamp et al, **88:** 406, 1967
—Little League shoulder: osteochondrosis of proximal humeral epiphysis in boy baseball pitchers (ab), Joel E. Adams, **88:** 623, 1967

—combined superior vena cavography and azygography in patients with suspected lung carcinoma, Carl T. Rinker, Arch W. Templeton, James MacKenzie, G. Ray Ridings, Carl H. Almond, and Ridlon Kiphart, **88:** 441, 1967
—controlled study of survival of patients with clinically inoperable lung cancer treated with radiation therapy (ab), Julius Wolf et al, **88:** 198, 1967
—cryptococcal meningoencephalitis: two new radiologic signs, Harold Lehrer, Paul F. Larson, and Paul A. McGarry, **88:** 531, 1967
—high-energy electron therapy and two-component theory of radiation (ab), R. Wideröe, **88:** 634, 1967
—hyponatremia from inappropriate antidiuretic hormone elaboration in carcinoma of lung (ab), C. Porter Claxton, Jr., et al, **88:** 820, 1967
—inoperable bronchial cancer treated by combined telecobalt and Natulan therapy (ab), A. G. Sandison et al, **88:** 1209, 1967
—isosensitive radioisotope scanning, Kin-ichi Hisada, Satoru Ohba and Masamichi Matsudaira, **88:** 124, 1967
—laminagraphic studies of the vascular patterns in cancer of lung with special reference to "circumscribed" variety (ab), I. Bluth, **88:** 1190, 1967
—on treatment of bronchial carcinoma (ab), Karl de Jong and Karlheinz Renner, **88:** 844, 1967
—percutaneous balloon-occlusion of aorta (ab), Björn Nordenström, **88:** 616, 1967
—pneumothorax from pulmonary metastases (ab), A. d'Ettorre and L. Babini, **88:** 174, 1967
—preoperative irradiation in bronchogenic carcinoma (ab), Felice Manfredi et al, **88:** 1051, 1967
—radiotherapeutic response or primary lung carcinoma according to cell type (ab), Martin L. Silbiger and Stewart Lott, **88:** 1052, 1967
—results of radiation therapy of bronchial carcinoma (ab), Robert Bauer et al, **88:** 415, 1967
—results of radiotherapy of malignant lung tumors: consideration of 401 cases with particular regard to a comparison of conventional and high-energy radiotherapy (ab), A. Trenta et al, **88:** 199, 1967
—scanning bremsstrahlung of yttrium-90 microspheres injected intra-arterially, Norman Simon and Sergei Feitelberg, **88:** 719, 1967
—simultaneous performance of isosensitive scanning and bilaminoscanning, Kin-ichi Hisada, Tatsunosuke Hiraki, Satoru Ohba and Masamichi Matsudaira, **88:** 129, 1967
—split-dose intensive radiation therapy in treatment of advanced lung cancer; randomized study, Seymour H. Levitt, C. R. Bogardus, Jr., and George Ladd, **88:** 1159, 1967
—survival of men with measurable proved lung cancer in relation to growth rate (ab), William Weiss et al, **88:** 1190, 1967
—thoracic inlet tumors (ab), Norman G. G. Hepper et al, **88:** 174, 1967
—transbronchial biopsy ("brushing") of peripheral lung lesions, John J. Fennessy, **88:** 878, 1967
transthoracic anastomosis between the greater and lesser circulation (ab), M. Sossaï, **88:** 1030, 1967
collapse
—atelectases in sarcoidosis (ab), W. Schermuly and H. Behrend, **88:** 1189, 1967
—isolated disease of middle lobe and lingula (ab), Rudolph C. Camishion et al, **88:** 607, 1967
—postoperative heart (ab), Basil Strickland, **88:** 393, 1967
—right middle lobe syndrome in children (ab), Susan C. Dees and Alexander Spock, **88:** 607, 1967
cysts
—familial fibrocystic pulmonary dysplasia: detailed family study (ab), A. G. Adelman et al, **88:** 1022, 1967
—transthoracic anastomosis between the greater and lesser circulation (ab), M. Sossaï, **88:** 1030, 1967
—unicystic interpretation of causes of alveolar filling in bronchography (ab), Carlo de Chiara and Pietro Croce, **88:** 173, 1967
diseases
—*aspergillosis.* See Aspergillosis
—clinicophysiologic correlations in diffuse pulmonary fibroses and granulomatoses (ab), John T. Sharp et al, **88:** 820, 1967
—fibrosing alveolitis: its occurrence, roentgenographic and pathologic features in von Recklinghausen's neurofibromatosis (ab), Donald Massaro and Sol Katz, **88:** 173, 1967
—*histoplasmosis.* See Histoplasmosis
—isolated disease of middle lobe and lingula (ab), Rudolph C. Camishion et al, **88:** 607, 1967
—pneumonitis due to Cryptostroma corticale (maple-bark disease) (ab), Dean A. Emanuel et al, **88:** 392, 1967
—pulmonary manifestations of Behçet's syndrome (ab), B. Marchi, **88:** 1023, 1967
—radiologic contributions to nosology of obstructive lung disease entities (ab), Mauricio J. Dulfano and John Hewetson, **88:** 1020, 1967
—rheumatoid lung disease with cavitary nodules, pneumothorax and eosinophilia (ab), M. M. Portner and W. A. Gracie, Jr., **88:** 1023, 1967
—*sarcoidosis.* See Sarcoidosis
edema
—lateral roentgenogram in pulmonary edema (ab), D. C. Gleason and R. E. Steiner, **88:** 1187, 1967
—postictal pulmonary edema (ab), Robert W. Huff and Herbert L. Fred, **88:** 392, 1967
effects of irradiation
—morphologic changes induced in lungs of hamsters and rats by external radiation (x-rays): study in experimental carcinogenesis (ab), A. J. de Villiers and Paul Gross, **88:** 1062, 1967
fibrosis. See also Pneumoconiosis
—clinicophysiologic correlations in diffuse pulmonary fibroses and granulomatoses (ab), John T. Sharp et al, **88:** 820, 1967
—familial fibrocystic pulmonary dysplasia: detailed family study (ab), A. G. Adelman et al, **88:** 1022, 1967
—pulmonary fibrosis following radiation. Radiological and clinical aspects: studies of pathomorphogenesis (ab), R. Bässler and W. Buchwald, **88:** 420, 1967
granulomatosis. See Lungs, diseases
hemorrhage
—hemorrhagic pulmonary-renal syndrome of Goodpasture; case report (ab), Howard D. Sirak et al, **88:** 607, 1967
hernia
—hernia of lung: brief survey and report of 2 cases (ab), P. Bidstrup et al, **88:** 1024, 1967
hyperlucent. See Emphysema, pulmonary
middle-lobe syndrome. See Lungs, collapse
pathology
—iodinated alveolar residues after bronchography: radiologic observations in 226 specimens (ab), Giuseppe Bruno and Carlo de Chiara, **88:** 175, 1967
—lungs and pleura in rheumatoid arthritis (ab), William Keith C. Morgan and Donald A. Wolfel, **88:** 1188, 1967
—physiologic roentgenographic disparity in sarcoidosis (ab), Robert L. Young and Richard A. Krumholz, **88:** 609, 1967
—postoperative pulmonary patterns following cardiopulmonary bypass (ab), Arch W. Templeton et al, **88:** 178, 1967
—pulmonary complications following furniture polish ingestion: 21 cases (ab), John P. Jimenez and Richard G. Lester, **83:** 1188, 1967
—pulmonary complications of peritoneal dialysis (ab), G. M. Berlyne et al, **88:** 392, 1967
—roentgenographic study of pulmonary manifestations of mucoviscidosis in children (ab), M. Le Genissel and R. Gilly, **88:** 1186, 1967
physiology
—pulmonary-function response to radioisotope scanning of lungs (ab), Warren M. Gold and Kenneth R. McCormack, **88:** 636, 1967
—pulmonary hypertension and unilateral pleural constriction with speculation on pulmonary vasoconstrictive substance (ab), Eugene D. Robin et al, **88:** 1021, 1967
roentgenography. See also Bronchi, roentgenography; Pneumoconiosis; Pneumonia; Pulmonary Artery; Thorax, roentgenography; other subheads under Lungs; etc.
—hyperlucent lung, problem in differential diagnosis (ab), Morris M. Culiner, **88:** 391, 1967

LUNGS, roentgenography—*cont.*
—standardization of cardiopulmonary roentgenograms in infants and children (ab), André Davignon et al, **88:** 818, 1967
scanning. See also other subheads under Lungs
—blended scintiscans of lungs with dual detector system, Arthur A. Sasahara, John S. Belko, and Robert G. Simpson, **88:** 363, 1967
—lung-liver radioisotope scans in diagnosis of subdiaphragmatic abscess (ab), Donald W. Brown, **88:** 1057, 1967
—pulmonary scans achieved with macroaggregated radioiodinated albumin: use in diagnosis of pulmonary artery agenesis (ab), Roger M. Atwood et al, **88:** 417, 1967
—visualization of lung by methods of scintiphotography (ab), Merle K. Loken and Robert D. Bugby, **88:** 847, 1967
scintigraphy. See Lungs, scanning
tumors. See also Lungs, cancer
—experimental determination of pulmonary tissue factor in cobalt 60 teletherapy (ab), Antero Voutilainen and Soini Vähätalo, **88:** 844, 1967
—pneumothorax from pulmonary metastases (ab), A. d'Ettorre and L. Babini, **88:** 174, 1967
—primary pulmonary lymphoma; review of literature and 2 case reports (ab), Ferid Ehrenstein, **88:** 608, 1967
—radioisotopic scanning as aid in planning radiation therapy (ab), M. Tefft, **88:** 847, 1967
—radiotherapy with moving-strip technic for testicular tumors metastatic to lungs (ab), Norman Simon et al, **88:** 1053, 1967
—sarcoma of pericardium (ab), M. Payfa et al, **88:** 178, 1967
—solitary bronchiolar (alveolar cell) carcinoma of lung (ab), Edward R. Munnell et al, **88:** 609, 1967
—terminal bronchiolar or "alveolar cell" cancer of the lung; 265 cases (ab), William L. Watson and Ali Farpour, **88:** 393, 1967
wounds and injuries
—injuries of chest wall, pleura, pericardium, lungs, bronchi, and esophagus (ab), Jack Reynolds and John Thomas Davis, **88:** 822, 1967
—pulmonary parenchymal findings in blunt trauma to chest (ab), Y. M. Ting, **88:** 1191, 1967
LUTTERBECK, EUGENE F., and HUMMON, IRVIN F.: Hazards of radiation in obstetrics and gynecology (ab), **88:** 1060, 1967
LYMPH NODES
See also Lymphatic System; Lymphography; Tumors, lymphoma
—effect of renal lymphatic ligation on kidney and blood pressure, Ralph M. Lilienteld, Richard M. Friedenberg, and John R. Herman, **88:** 1105, 1967
—roentgenologic features of lymphoid hyperplasia of small intestine associated with dysgammaglobulinemia, John R. Hodgson, Harry N. Hoffman, II, and Kenneth A. Huizenga, **88:** 883, 1967
cancer
—carcinoma of breast—significance of supraclavicular lymph node metastases (ab), S. M. Jackson, **88:** 175, 1967
—clinicopathologic correlation of lymphography and lymph node metastases in gynecological neoplasms (ab), David L. Benninghoff et al, **88:** 412, 1967
—distant metastases in squamous-cell carcinoma of uterine cervix, Victor Carlson, Luis Delclos, and Gilbert H. Fletcher, **88:** 961, 1967
—lymphography in preoperative detection of lymphatic metastasis (ab), H. E. Averette et al, **88:** 182, 1967
—pulmonary oil deposition in patients subjected to lymphography: detection by thoracic photoscan and sputum examination (ab), P. Richardson et al, **88:** 183, 1967
pathology
—mediastinal lymph node hyperplasia; report of case with growth over an 8-year period (ab), William Stanford et al, **88:** 606, 1967
tumors
—sarcoma of pericardium (ab), M. Payfa et al, **88:** 178, 1967
—use of serial lymphadenograms to show changes in size of retroperitoneal lymph-node tumors (ab), L. Beltz and P. Thurn, **88:** 182, 1967
LYMPHADENOGRAPHY. See Lymphography
LYMPHANGIOADENOGRAPHY. See Lymphography
LYMPHANGIOGRAPHY. See Lymphography
LYMPHANGIOMA. See Tumors, angioma
LYMPHATIC SYSTEM
—observations on surgical interruption of lymphatic pathways (ab), Bernard F. Vaughan, **88:** 618, 1967
—pathologic studies following magnetic control of metallic iron particles in lymphatic and vascular system of dogs as contrast and isotopic agent (ab), Phillip H. Meyers et al, **88:** 205, 1967
—radiologic demonstration of lymphatic circulation of the heart (ab), A. Celis et al, **88:** 1026, 1967
—roentgenologic features of lymphoid hyperplasia of small intestine associated with dysgammaglobulinemia, John R. Hodgson, Harry N. Hoffman, II, and Kenneth A. Huizenga, **88:** 883, 1967
diseases
—study of thoracico-abdominal lymphatic system. I. Lymph node perfusion technic. II. Lymph node perfusion by overfill technic (ab), August P. Hovnanian et al, **88:** 1196, 1967
fistula. See Fistula
obstruction
—lymphographic appearances following lymphatic obstruction in dog (ab), J. I. Burn et al, **88:** 1196, 1967
LYMPHEDEMA. See Arms
LYMPHOCYTES
See also Leukemia; Leukocytes; Tumors, lymphoma
—evaluation of therapy in chronic lymphocytic leukemia using in vitro lymphocyte transformation, A. Robert Kagan and Ralph E. Johnson, **88:** 352, 1967
—in vitro reactions of lymphocytes from normal mice and from viral and x-ray-induced lymphomas (ab), Lloyd M. Elrod and Robert Schrek, **88:** 1064, 1967
LYMPHOGRANULOMATOSIS. See Tumors, lymphoma
LYMPHOGRAPHY
See also Abdomen, fibrosis; Arms, edema; Breast, cancer; Fistula, lymphaticovenous; Lymph Nodes, cancer; Reticuloendothelial System, diseases; Tumors, lymphoma

RADAR. See Radiobiology, blood and hemopoietic studies
RADIATIONS
See also Atomic Bomb and Atomic Energy; Dosimetry; Electrons; Plutonium; Roentgen Rays; Radiobiology; under specific isotopes; etc.
—protons and space travel (ab), V. Dalrymple et al, **88:** 421, 1967
protection against
—easy method to insure constant monitoring of radiation exposure, Curtis Meltzer, **88:** 368, 1967
—evaluation of self-shielding characteristics of human thorax for bioassay of Pu^{239} and Am^{241}, A. G. Bukovitz, J. A. Sayeg, A. A. Spritzer, and A. Brodsky, **88:** 153, 1967
—rapid optical method for preparation of complex field shapes, John D. Earle and Malcolm A. Bagshaw, **88:** 1162, 1967
—routine for "on-line" radium leak testing, Douglas John Wright and Frank Campellone, **88:** 150, 1967
—the remarkable by-product. Annual Oration in memory of Ira Hiram Lockwood, M.D., 1885–1957, Reynold F. Brown, **88:** 645, 1967
—warning system for radiation protection (ab), A. Hätty et al, **88:** 639, 1967
RADIATIONS, INJURIOUS EFFECTS
See also Radiobiology (for experimental work); under specific agents and organs and regions.
—frequency of live births among survivors of Hiroshima and Nagasaki atomic bombings (ab), Daniel G. Siegel, **88:** 421, 1967
—hazards of radiation in obstetrics, gynecology (ab), Eugene F. Lutterbeck and Irvin F. Hummon, **88:** 1060, 1967
—late results of radiation therapy 70 years ago (ab), Georg Fuchs and Josef Hofbauer, **88:** 852, 1967
—protons and space travel (ab), V. Dalrymple et al, **88:** 421, 1967
accidental
—ignorance, experimentation, tragedy: radiation injury to hand (ab), William R. Allen, **88:** 1060, 1967
bone marrow. See Radiations, Injurious Effects, hematologic; hematopoietic
complications of radiotherapy
—hypopituitary dwarfism following radiotherapy for nasopharyngeal carcinoma (ab), B. C. Tan and N. Kunaratnam, **88:** 638, 1967
—hypothyroidism after external irradiation to thyroid region, Jerzy Einhorn and Gunnel Wikholm, **88:** 326, 1967
—injuries related to radiation treatment of carcinoma of cervix and complications of supplemental surgery (ab), Gilles D. Hurteau et al, **88:** 854, 1967
—keratin granulomas in irradiated squamous-cell carcinoma of various sites (ab), Homa Safaii and Henry A. Azar, **88:** 1061, 1967
—liver scanning in assessment of liver damage from therapeutic external irradiation (ab), James A. Usselman, **88:** 1054, 1967
—perforation and fistulization during radiotherapy for malignant esophageal tumors (ab), L. Babini and P. Sassi, **88:** 198, 1967
—polycythemia vera and leukemia—role of radiation treatment; study of 1,222 patients (ab), Baruch Modan and Abraham M. Lilienfeld, **88:** 414, 1967
—prevention of radio-osteomyelitis in mandible and maxilla (ab), J. Harold Conn et al, **88:** 631, 1967
—time-dose considerations in radiation myelopathy (ab), Harold L. Atkins and Patricia Tretter, **88:** 1061, 1967
embryonal, fetal
—analysis of morbidity and mortality of children irradiated in fetal life, M. L. Griem, Paul Meier, and Glen D. Dobben, **88:** 347, 1967
—hazards of radiation in obstetrics and gynecology (ab), Eugene F. Lutterbeck and Irvin F. Hummon, **88:** 1060, 1967
endocrine
—hypopituitary dwarfism following radiotherapy for nasopharyngeal carcinoma (ab), B. C. Tan and N. Kunaratnam, **88:** 638, 1967
gastrointestinal
—acute gastric ulcers induced by radiation (ab), A. Sell and T. Skov Jensen, **88:** 639, 1967
—changes in villous pattern of human jejunum associated with heavy radiation damage (ab), George Wiernik, **88:** 854, 1967
—clinical analysis of acute intestinal radiation reaction after roentgen, radium, and telecobalt therapy (ab), Klaus Meumeister and Joachim Pfeiffer, **88:** 852, 1967
—gastric hyalinization without irradiation (ab), J. Chandler Smith, **88:** 183, 1967
—surgical implications of irradiation damage to bowel (ab), A. M. Cuthbertson, **88:** 854, 1967
genetic, gonadal, etc.
—effect of x-ray quality and ovarian location on genetic exposure in gynecological examinations (ab), I. Niki, **88:** 854, 1967
—environmental hazards: ionizing radiation (ab), John B. Little, **88:** 1214, 1967
—procedure for calculation of gonadal x-ray dose in diagnostic radiography (ab), M. D. Heller et al, **88:** 1060, 1967
hematologic; hematopoietic
—effect of x rays on human sternal marrow circulation, Sidney Trubowitz, Herbert Strauss and Maurice J. Small, **88:** 140, 1967
—extracorporeal irradiation of blood in humans; effects upon erythrocyte survival (ab), Lewis M. Schiffer et al, **88:** 422, 1967
—persistent chromosomal aberrations following radioiodine therapy for thyrotoxicosis (ab), S. J. Cantolino et al, **88:** 1210, 1967
—thrombelastogram in personnel professionally exposed to radiation (ab), Horst zur Horst-Meyer, **88:** 853, 1967
in physicians, radiation personnel, etc.
—thrombelastogram in personnel professionally exposed to radiation (ab), Horst zur Horst-Meyer, **88:** 853, 1967
industrial
—ignorance, experimentation, tragedy: radiation injury to hand (ab), William R. Allen, **88:** 1060, 1967

RADIATIONS, INJURIOUS EFFECTS—*cont.*
leukemic
—polycythemia vera and leukemia—role of radiation treatment; study of 1,222 patients (ab), Baruch Modan and Abraham M. Lilienfeld, **88:** 414, 1967
—radiation-related leukemia in Hiroshima and Nagasaki, 1946–1964. I. Distribution incidence, and appearance time (ab), O. Joseph Bizzozero, Jr. et al, **88:** 207, 1967
neoplastic
—development of multiple thyroid adenomata in primary hyperthyroidism in previously irradiated thyroid glands (ab), I. Doniach et al, **88:** 852, 1967
—environmental hazards: ionizing radiation (ab), John B. Little, **88:** 1214, 1967
—hepatoma induced by thorium dioxide (Thorotrast) (ab), John S. MacKay and Roderick C. Ross, **88:** 421, 1967
—keratin granulomas in irradiated squamous-cell carcinoma of various sites (ab), Homa Safaii and Henry A. Azar, **88:** 1061, 1967
—neoplasms following irradiation of head (ab), Richard W. Hazen et al, **88:** 420, 1967
—Thorotrast tumors of kidney; 3 new cases (ab), J. H. Dunant and G. Rutishauser, **88:** 1214, 1967
neurologic
—delayed transitory clinical manifestations after treatment of intracranial tumors (ab), Edwin Boldrey and Glenn Sheline, **88:** 1050, 1967
—time-dose considerations in radiation myelopathy (ab), Harold L. Atkins and Patricia Tretter, **88:** 1061, 1967
ophthalmologic
—ocular effects of radiation and photocoagulation: study of 100 globes with retinoblastoma, some of which were treated prior to enucleation (ab), George M. Howard, **88:** 853, 1967
—strontium 90 beta irradiation: cataractogenicity and pterygium recurrence: results of postirradiational survey 5 to 6 years after treatment (ab), J. H. C. Hilgers, **88:** 850, 1967
osseous
—hypopituitary dwarfism following radiotherapy for nasopharyngeal carcinoma (ab), B. C. Tan and N. Kunaratnam, **88:** 638, 1967
—prevention of radio-osteomyelitis in mandible and maxilla (ab), J. Harold Conn et al, **88:** 631, 1967
otorhinolaryngologic
—irradiation and otosclerosis: histological studies (ab), M. Balslev Jørgensen and H. K. Kristensen, **88:** 1060, 1967
urinary
—Thorotrast tumors of kidney; 3 new cases (ab), J. H. Dunant and G. Rutishauser, **88:** 1214, 1967
RADIOAMERICIUM
—evaluation of self-shielding characteristics of human thorax for bioassay of Pu^{239} and Am^{241}, A. G. Bukovitz, J. A. Sayeg, A. A. Spritzer, and A. Brodsky, **88:** 153, 1967
RADIOBIOLOGY
See also under names of specific radioisotopes; Roentgen Rays; and under names of organs and regions
—ionizing radiation (bk rev), Severino Perez Modrego and Antonio Plata Bedmar, **88:** 811, 1967
—method to experimentally determine equilibrium proton spectrum existing in tissue during irradiation with high-energy neutrons, Norman A. Baily and R. Ted Nichols, **88:** 151, 1967
—protons and space travel (ab), V. Dalrymple et al, **88:** 421, 1967
—radiation and wound healing: influence of dietary methionine and zinc on zinc-65 distribution and excretion in the rat (ab), Kenneth E. Kinnamon, **88:** 1063, 1967
anaphylactic and immunity studies
—influence of x irradiation on experimental allergic encephalomyelitis in rats (ab), Branko Vitale et al, **88:** 639, 1967
blood and hemopoietic studies
—autoradiographic studies of lymphoid cells in blood and bone marrow of normal and irradiated dogs (ab), G. Keiser et al, **88:** 207, 1967
—comparative repopulation recovery of circulating erythrocytes following graded second gamma-ray exposures in mice (ab), J. F. Spalding, **88:** 856, 1967
—in vitro reactions of lymphocytes from normal mice and from viral and x-ray-induced lymphomas (ab), Lloyd M. Elrod and Robert Schrek, **88:** 1064, 1967
—leukocyte response following simultaneous ionizing and microwave (radar) irradiation (ab), R. A. E. Thomson et al, **88:** 853, 1967
—measurement of intravascular erythrocyte sequestration by Cr^{51}: effect of endotoxin in dogs and clinical status, extracorporeal circulation and rapid sampling in man (ab), Paul H. Sherman et al, **88:** 635, 1967
bone studies
—accretion and exchange of strontium-85 in trabecular and cortical bones (ab), J. K. Gong et al, **88:** 638, 1967
—local and systemic effects of ionizing radiation on bone growth (ab), Richard D. Phillips and Donald J. Kimeldorf, **88:** 422, 1967
—quantitative microdensitometric x-ray analysis of vertebral trabecular bone: preliminary report, S. David Rockoff, **88:** 794, 1967
—relative toxicities of radium 226, plutonium 239, and strontium 90 for bone tumor induction (ab), G. Hems and R. H. Mole, **88:** 1213, 1967
—roentgenographic study of terminal pathological changes in skeletons of strontium-90 treated rats (ab), B. J. Hopkins et al, **88:** 851, 1967
—study of metabolism of fluorine-18 in dogs and its suitability for bone scanning (ab), H. J. Dworkin et al, **88:** 846, 1967
—tetracycline labelling methods of measuring growth of bones in rat (ab), E. Tapp, **88:** 1037, 1967
bone-marrow studies
—autoradiographic studies of lymphoid cells in blood and bone marrow of normal and irradiated dogs (ab), G. Keiser et al, **88:** 207, 1967
—regeneration of bone-marrow cells in rats following cyclophosphamide or total-body irradiation (ab), Herman Høst, **88:** 1063, 1967
—regeneration of locally irradiated bone marrow. I. Dose-dependent, long-term changes in the rat, with particular emphasis upon vascular and stromal reaction (ab), William H. Knospe et al, **88:** 855, 1967
cancer, tumor studies
—acquired radioresistance of transplanted mammary adenocarcinoma in inbred mice after serial irradiation, Neil A. Hoffman, Frank F. Gollin, and Kelly H. Clifton, **88:** 568, 1967
—analysis of tumor-recurrence times, Herman Suit, Reimut Wette, and Robert Lindberg, **88:** 311, 1967; appendix, Reimut Wette, **88:** 321, 1967
—carcinogenesis in naturally tumor-resistant mice: x-irradiation versus urethan as carcinogenic agent (ab), Anna Goldfeder et al, **88:** 1063, 1967
—combined therapy with 220 kV roentgen and 5-hydroxytryptamine or cyproheptadine in rat hepatoma (ab), Donald B. Cater and Constance A. Grove, **88:** 423, 1967
—factors in development of metastases after irradiation of L-1 lymphosarcoma, M. R. Sikov, B. B. Chapman, and J. E. Lofstrom, **88:** 1007, 1967
—factors responsible for distribution of radioactivity in mouse glioma and brain after injection of RIHSA (ab), Charles H. Tator and Jerzy Olszewski, **88:** 1055, 1967
—hyperbaric oxygen effect on experimental tumor growth, Ralph E. Johnson, A. Robert Kagan, and Thomas L. Bryant, **88:** 775, 1967
—in vitro measurements of human tumor growth (ab), Harold Coons et al, **88:** 1058, 1967
—in vitro reactions of lymphocytes from normal mice and from viral and x-ray-induced lymphomas (ab), Lloyd M. Elrod and Robert Schrek, **88:** 1064, 1967
—induction of benign and malignant thyroid neoplasms in rat; induction of thyroid neoplasms by injection of I^{131} with or without the feeding of diets containing propylthiouracil and/or desiccated thyroid (ab), Stuart Lindsay et al, **88:** 203, 1967
—morphologic changes induced in lungs of hamsters and rats by external radiation (x-rays): experimental carcinogenesis (ab), A. J. de Villiers and Paul Gross, **88:** 1062, 1967
—ovarian tumorigenesis in irradiated parabiotic rats (ab), Gilbert H. Friedell et al, **88:** 1063, 1967
—pathogenesis of radiation-induced thymic lymphoma in mice (ab), Richard Siegler et al, **88:** 640, 1967
—prevention of radio-osteomyelitis in mandible and maxilla (ab), J. Harold Conn et al, **88:** 631, 1967
—quantitative radiosensitivity studies of solid carcinomas in vivo: methodology and effect of anoxia (ab), Kelly H. Clifton et al, **88:** 208, 1967
—radiation dose fractionation and tumor control probability (ab), Herman Suit and Reimut Wette, **88:** 1214, 1967
—radiation-induced adrenal medullary tumors in the rat (ab), Shields Warren et al, **88:** 855, 1967
—reaction of neoplasm and brain to laser (ab), Hubert L. Rosomoff and Fred Carroll, **88:** 207, 1967
—relative toxicities of radium 226, plutonium 239, and strontium 90 for bone tumor induction (ab), G. Hems and R. H. Mole, **88:** 1213, 1967
—results of fractionation and protraction of total-body radiation on rat mammary neoplasia (ab), Claire J. Shellabarger et al, **88:** 1062, 1967
cardiovascular studies
—aortographic localization of controlled gastrointestinal hemorrhage in dogs (ab), Burton F. Jaffe et al, 88: 402, 1967
—appraisal of coronary arteriography in evaluating hemodynamic significance of experimental coronary artery stenosis, Joseph J. Bookstein and Donald R. Kahn, **88:** 672, 1967
—hemodynamic consequences of pressure injection into pulmonary artery (ab), Stanley J. Goldberg et al, **88:** 179, 1967
—in vivo behavior of artificial aortic and mitral valve prostheses: preliminary observations, John H. Feist and George J. Magovern, **88:** 791, 1967
—microangiographic studies on changes in cerebral vessels after irradiation. I. Lesions in rabbit produced by Co^{60} γ-rays, 195 kV and 34 MV roentgen rays (ab), O. Hassler and A. Movin, **88:** 639, 1967: II. Proton beam lesions in the rat (ab), O. Hassler, **88:** 1062, 1967.
—morphologic observations of internal mammary artery-myocardial implantation (ab), Y. Maruyama et al, **88:** 1195, 1967
—pathologic studies following magnetic control of metallic iron particles in lymphatic and vascular system of dogs as contrast and isotopic agent (ab), Phillip H. Meyers et al, **88:** 205, 1967

RADIOBIOLOGY, cardiovascular studies—*cont.*
—phlebography in post-thrombotic syndrome (ab), S. L. Zgliczynski et al, **88:** 618, 1967
cell and tissue studies. See also other subheads under Radiobiology
—autoradiographic studies of lymphoid cells in blood and bone marrow of normal and irradiated dogs (ab), G. Keiser et al, **88:** 207, 1967

—experimental evaluation of emulsified iophendylate in cranial subarachnoid space (ab), L. Penning et al, **88:** 604, 1967
—factors responsible for distribution of radioactivity in mouse glioma and brain after injection of radioiodinated human serum albumin (RIHSA) (ab), Charles H. Tator and Jerzy Olszewski, **88:** 1055, 1967
—influence of x irradiation on experimental allergic encephalomyelitis in rats (ab), Branko Vitale et al, **88:** 639, 1967
—locomotor behavior and neuromorphologic anomalies in prenatally and postnatally irradiated rats (ab), James M. Lipton, **88:** 640, 1967
—microangiographic studies on changes in cerebral vessels after irradiation. I. Lesions in rabbit produced by Co^{60} γ-rays, 195 kV and 34 MV roentgen rays (ab), O. Hassler and A. Movin, **88:** 639, 1967
—microangiographic studies on changes in cerebral vessels after irradiation. II. Proton beam lesions in the rat (ab), O. Hassler, **88:** 1062, 1967
—oxygen effect and selectivity of radiolesions in mammalian neuraxis (ab), Wolfgang Zeman, **88:** 1061, 1967
—reaction of neoplasm and brain to laser (ab), Hubert L. Rosomoff and Fred Carroll, **88:** 207, 1967
—vasopressin action on cephalic vasculature; angiographic study in dog (ab), Karl Fredrik Aronsen and Göran Nylander, **88:** 602, 1967

RADIOBIOLOGY—*cont.*
pancreatic studies
—effect of irradiation on fine structure and enzymes of dog pancreas. I. Short-term studies (ab), Bruno W. Volk et al, **88:** 207, 1967
—effects of 250-kV x rays on dog's pancreas: morphological and functional changes (ab), John Archambeau et al, **88:** 422, 1967
—experimental reflux pancreatography and cholangiography, Robert L. Waldron, II, David G. Bragg, William J. Daly, and William B. Seaman, **88:** 357, 1967
protective and therapeutic agents
—influence of thymectomy and subsequent thymus implantation on leukemia induction in adult C57BL mice by radiation and urethan (ab), I. Berenblum et al, **88:** 1064, 1967
—renal retention of mercury-203-Neohydrin (ab), Jerold P. Green, **88:** 205, 1967
pulmonary studies
—chest radiography following unilateral pulmonary artery occlusion, Frank E. Maddison, Robert R. Wright, and William H. Tooley, **88:** 435, 1967
—evaluation of self-shielding characteristics of human thorax for bioassay of Pu^{239} and Am^{241}, A. G. Bukovitz, J. A. Sayeg, A. A. Spritzer and A. Brodsky, **88:** 153, 1967
—morphologic changes induced in lungs of hamsters and rats by external radiation (x-rays): study in experimental carcinogenesis (ab), A. J. de Villiers and Paul Gross, **88:** 1062, 1967
—pulmonary fibrosis following radiation. Radiological and clinical aspects: studies of pathomorphogenesis (ab), R. Bässler and W. Buchwald, **88:** 420, 1967
radiosensitivity
—acquired radioresistance of transplanted mammary adenocarcinoma in inbred mice after serial irradiation, Neil A. Hoffman, Frank F. Gollin, and Kelly H. Clifton, **88:** 568, 1967
—quantitative radiosensitivity studies of solid carcinomas in vivo: methodology and effect of anoxia (ab), Kelly H. Clifton et al, **88:** 208, 1967
—radiation sensitivity in diabetes: preliminary studies with alloxan diabetic rat, Walter G. Gunn, Ursula Slager, and Dennis C. Koukol, **88:** 349, 1967
—sensitization of *Micrococcus sodonensis* to x-radiation by neoarsphenamine in presence of oxygen, Morton M. Kligerman, Sten Löfgren, and Christopher Dean, **88:** 993, 1967
relative biological effectiveness
—comparison of biologic effectiveness of fractionated roentgen and electron beam therapy (ab), Dieter Hofmann, **88:** 845, 1967
—energy requirements and relative biological effectiveness for producing a cytogenetic phenomenon in maize by irradiating seeds with x rays and monoenergetic neutrons (ab), Harold H. Smith and Harald H. Rossi, **88:** 423, 1967
—microangiographic studies on changes in cerebral vessels after irradiation. I. Lesions in rabbit produced by Co^{60} gamma rays, 195 kV, and 34 MV roentgen rays (ab), O. Hassler and A. Movin, **88:** 639, 1967
—recovery and repopulation in mouse skin after irradiation with cyclotron neutrons as compared with 250-kV x-rays or 15-MeV electrons (ab), J. Denekamp et al, **88:** 856, 1967
—relative toxicities of radium 226, plutonium 239, and strontium 90 for bone tumor induction (ab), G. Hems and R. H. Mole, **88:** 1213, 1967
transplantation and grafting studies
—prolongation of renal homograft survival by indwelling beta irradiation (ab), James S. Wolf et al, **88:** 420, 1967
urinary tract studies
—compartment analysis of Hippuran-I^{131} distribution in intact and nephrectomized dogs (ab), Dale Landes et al, **88:** 848, 1967
—extrarenal excretion of diatrizoate in renal failure (ab), M. J. Chamberlain and T. Sherwood, **88:** 1207, 1967
—function changes secondary to local irradiation in kidneys damaged by ischemia (ab), A. K. Gup et al, **88:** 638, 1967
—prolongation of renal homograft survival by indwelling beta irradiation (ab), James S. Wolf et al, **88:** 420, 1967
—quantitative radiorenography in diagnosis of renal hypertension (ab), E. K. Dore et al, **88:** 204, 1967
—reconstruction of ureter by free autologous bladder mucosa graft (ab), August P. Hovnanian and I. A. Kingsley, **88:** 838, 1967
—systemic factor in recovery of rat kidney from x irradiation: thymidine-H^3 incorporation studies (ab), L. W. Wachtel et al, **88:** 422, 1967
—use of mercury-203 scintiscan in experimental renal trauma (ab), R. Betti et al, **88:** 1057, 1967

RADIOCALCIUM
—calcium metabolism in fracture healing: experimental kinetic study in rats, using Ca^{45} (ab), Roger G. Lemaire, **88:** 845, 1967
—preliminary study of human calcium metabolism, using long-term whole-body tracer measurements (ab), Joan E. Harrison et al, **88:** 201, 1967

RADIOCARBON
—cell population kinetics in intestine of continuously irradiated mice, using double-labeling autoradiography (ab), Donald E. Wimber and L. F. Lamerton, **88:** 423, 1967

RADIOCESIUM
—new methodology in curietherapy: Paris system (endo- and plesioradiotherapy with nonradioactive carrier) (ab), B. Pierquin and A. Dutreix, **88:** 1058, 1967
—skeletal muscle scans in progressive muscular dystrophy and related neuromuscular diseases (ab), Teruo Nagai and Tetsuo Furukawa, **88:** 417, 1967

RADIOCHROMIUM
See also Radiophosphorus
—experiences with labeling of thrombocytes with chromium 51 (ab), A. von Mühlenen et al, **88:** 1210, 1967
—mean cerebral blood transit time obtained by external measurement of intravenously injected tracer (ab), S. Hedlund et al, **88:** 1055, 1967
—measurement of intravascular erythrocyte sequestration by Cr^{51}: effect of endotoxin in dogs and clinical status, extracorporeal circulation and rapid sampling in man (ab), Paul H. Sherman et al, **88:** 635, 1967

RADIOCOBALT
See also Radiobiology; Vitamins, B_{12}
—renal clearance of Co^{57}-cyanocobalamin; importance of plasma-protein binding (ab), T. H. Foley et al, **88:** 417, 1967
dosimetry. See also Dosimetry
—simple procedure for estimating off-axis doses in medium irradiated by cobalt-60 beams, K. C. Tsien, D. J. Wright and Chao-Chin Chou, **88:** 967, 1967
injurious effects. See Radiations, Injurious Effects
therapy. See also under organs and regions, as Testes, tumors
—experimental determination of pulmonary tissue factor in cobalt 60 teletherapy (ab), Antero Voutilainen and Soini Vähätalo, **88:** 844, 1967
—inoperable bronchial cancer treated by combined telecobalt and Natulan therapy (ab), A. G. Sandison et al, **88:** 1209, 1967
—radiography with cobalt 60 (ab), G. Pontiphikos et al, **88:** 1054, 1967
—single-field weighting of arc-rotation technics, David L. George and D. J. Wright, **88:** 152, 1967

RADIOFLUORIDE
—improved method of producing fluorine 18 for use in medium flux reactors, Charles A. Kelsey, Russell C. Briggs and Honore Stelmach, **88:** 148, 1967
—study of metabolism of fluorine-18 in dogs and its suitability for bone scanning (ab), H. J. Dworkin et al, **88:** 846, 1967

RADIOGOLD
—Au^{198} liver scan: index of portal-systemic collateral circulation in chronic liver disease (ab), Donald O. Castell and Raymond B. Johnson, **88:** 635, 1967
—correlation of clearance and distribution of colloidal gold in liver as index of hepatic cirrhosis, J. H. Christie, G. Gomez Crespo, Dieter Koch-Weser, and W. M. MacIntyre, **88:** 334, 1967
—delineation of active marrow by whole-body scanning with radioactive colloids (ab), R. M. Kniseley et al, **88:** 846, 1967
—intracavitary administration of radioactive isotopes in control of effusions due to cancer: results in 267 patients (ab), Irving M. Ariel et al, **88:** 850, 1967
—liver regeneration following hepatectomy, evaluated by scintillation scanning, Jacob J. Parker and Jan K. Siemsen **88:** 342, 1967
—lung-liver radioisotope scans in diagnosis of subdiaphragmatic abscess (ab), Donald W. Brown, **88:** 1057, 1967
—new methodology in curietherapy: Paris system (endo- and plesioradiotherapy with nonradioactive carrier) (ab), B. Pierquin and A. Dutreix, **88:** 1058, 1967
—radioisotope photoscan of liver in differential diagnosis of upper abdominal disease: review of 232 cases (ab), William W. Shingleton et al, **88:** 206, 1967

RADIOGRAPHY. See Radiocobalt; Roentgen Rays; etc.
RADIOHYDROGEN. See Tritium

RADIOIODINE
See also Blood, proteins; Kidneys; Thyroid
—factors influencing dextran-gel filtration of serum and iodine-131-labeled *l*-thyroxine (ab), Frederick Clark et al, **88:** 418, 1967
—lung-liver radioisotope scans in diagnosis of subdiaphragmatic abscess (ab), Donald W. Brown, **88:** 1057, 1967
—scintillation scanning in rheumatoid arthritis (ab), Thomas E. Weiss et al, **88:** 1057, 1967
—scintillation scanning with 8-inch diameter sodium iodide (Tl) crystal (ab), J. G. McAfee et al, **88:** 851, 1967
—skeletal muscle scans in progressive muscular dystrophy and related neuromuscular diseases (ab), Teruo Nagai and Tetsuo Furukawa, **88:** 417, 1967
—turnover of I^{131}-labeled autologous macroglobulin in Waldenström's macroglobulinemia: report of case studied during treatment with phenylalanine mustard (ab), Patricia Wilkinson et al, **88:** 637, 1967
—turnover of I^{131}-labeled fibrinogen in man; studies in normal subjects, in congenital coagulation factor deficiency states, in liver cirrhosis, in polycythemia vera and epidermolysis bullosa (ab), B. Blombäck et al, **88:** 205, 1967
cardiovascular studies
—isotopic detection of thrombi (ab), Irving L. Spar et al, **88:** 202, 1967
—pulmonary scans achieved with macroaggregated radioiodinated albumin: use in diagnosis of pulmonary artery agenesis (ab), Roger M. Atwood et al, **88:** 417, 1967

RADIOIODINE, cardiovascular studies—*cont.*
—regional myocardial blood flow measured by I^{131}-labeled macroaggregated albumin (I^{131}-MAA) (ab), Hideo Ueda et al, **88:** 203, 1967
in gynecology and obstetrics
—amniotic fluid studies by isotope dilution and scanning (ab), Richard P. Spencer et al, **88:** 848, 1967
—placental scanning with iodine 131 (ab), R. D. Cooper, Jr., et al, **88:** 204, 1967
—radioisotope localization of placenta by Polaroid color scanning (ab), Leon Krohn et al, **88:** 204, 1967
liver studies
—correlation of clearance and distribution of colloidal gold in liver as index of hepatic cirrhosis, J. H. Christie, G. Gomez Crespo, Dieter Koch-Weser, and W. J. MacIntyre, **88:** 334, 1967
—radioisotope photoscan of liver in differential diagnosis of upper abdominal disease: review of 232 cases (ab), William W. Shingleton et al, **88:** 206, 1967
neurologic studies
—cerebral blood flow measured with radioactive isotopes (ab), Robert L. Bell, **88:** 1055, 1967
—factors responsible for distribution of radioactivity in mouse glioma and brain after injection of radioiodinated human serum albumin (RIHSA) (ab), Charles H. Tator and Jerzy Olszewski, **88:** 1055, 1967
—localization of RISA in human glioma: electron-microscopic study (ab), Anthony J. Raimondi, **88:** 1055, 1967
—mean cerebral blood transit time obtained by external measurement of intravenously injected tracer (ab), S. Hedlund et al, **88:** 1055, 1967
—reliability of scintillation scanning for detection of intracranial lesions (ab), Morton Schmukler and Joseph B. Workman, **88:** 206, 1967
—use of macroaggregates of radioiodinated human serum albumin in brain scanning (ab), E. G. King et al, **88:** 847, 1967
pulmonary studies
—pulmonary scans achieved with macroaggregated radioiodinated albumin: use in diagnosis of pulmonary artery agenesis (ab), Roger M. Atwood et al, **88:** 417, 1967
—regional abnormalities in pulmonary arterial blood flow during acute asthmatic attacks, Fred Mishkin and Henry N. Wagner, Jr., **88:** 142, 1967
—visualization of lung by methods of scintiphotography (ab), Merle K. Loken and Robert D. Bugby, **88:** 847, 1967
urologic studies
—determination of glomerular filtration rate by use of single injection of iodine-131-labeled sodium diatrizoate (ab), Roberta M. O'Dell, **88:** 418, 1967
—dynamic clinical studies with radioisotopes and scintillation camera. I. Sodium iodohippurate I^{131} renography (ab), Gerald Burke et al, **88:** 637, 1967
—radioHippuran accumulation in transplanted kidney as signal of rejection (ab), Jack E. Mobley and J. U. Schlegel, **88:** 419, 1967
—sequential response of I^{131} Hippuran renogram in renal homotransplantation (ab), Alton R. Sharpe, Jr., et al, **88:** 848, 1967

RADIOIRIDIUM
—new methodology in curietherapy: Paris system (endo- and plesioradiotherapy with nonradioactive carrier) (ab), B. Pierquin and A. Dutreix, **88:** 1058, 1967

RADIOIRON
—Fe^{59} absorption in human subjects using total-body counting technic (ab), Simeon Pollack et al, **88:** 417, 1967
—increased iron-59 absorption in patients with hepatic cirrhosis (ab), Ben L. Friedman et al, **88:** 849, 1967
—intestinal iron absorption studies using iron-52 and Anger positron camera (ab), R. A. Fawwaz et al, **88:** 849, 1967
—pathologic studies following magnetic control of metallic iron particles in lymphatic and vascular system of dogs as contrast and isotopic agent (ab), Phillip H. Meyers et al, **88:** 205, 1967

RADIOISOTOPES
See also Plutonium; Radiations; Radiobiology; Radium; Scans and Scanning; Thyroid; under names of individual isotopes, as Radioamericium; etc.
—course in clinical use of radioactive isotopes, **88:** 377, 1967
—course in medical uses of radioactive isotopes, Queens Hospital Center, New York, **88:** 162, 1967
—fellowship in nuclear medicine, **88:** 596, 1967
—ionizing radiation (bk rev), Severino Perez Modrego and Antonio Plata Bedmar, **88:** 811, 1967

RADIOKRYPTON
—liver blood flow measured by portal venous and hepatic arterial routes with Kr^{85} (ab), Milton Hollenberg and Joseph Dougherty, **88:** 419, 1967

RADIOLITHIUM
—improved method of producing fluorine 18 for use in medium flux reactors, Charles A. Kelsey, Russell C. Briggs and Honore Stelmach, **88:** 148, 1967

RADIOLOGICAL SOCIETY of NORTH AMERICA
—Annual Oration, 1966; tribute to Ira Hiram Lockwood, M.D. Introduction of orator, Reynold F. Brown, M.D., Lester D. Shook, **88:** 641, 1967
—Fifty-second Annual Meeting (ed), **88:** 372, 1967
—gold medal to Juan A. del Regato, **88:** 372, 1967
—Harold G. Jacobson, M.D., President, Radiological Society of North America, Jerome H. Shapiro, **88:** 369, 1967
—scientific exhibits, Fifty-second Annual Meeting (ed), **88:** 373, 1967
—the remarkable by-product. Annual Oration in memory of Ira Hiram Lockwood, M.D., 1885–1957, Reynold F. Brown, **88:** 645, 1967

RADIOLOGY and RADIOLOGISTS
See also Education; Radiations, Injurious Effects, in physicians, radiation personnel, etc.
—education and training in radiology (ab), Charles M. Nice, Jr., **88:** 1049, 1967
—new forms of teaching radiology in medical institutes (ab), L. D. Lindenbraten, **88:** 840, 1967
—remarkable by-product. Annual Oration in memory of Ira Hiram Lockwood, M.D., 1885–1957, Reynold F. Brown, **88:** 645, 1967
—role of university department of radiology (ab), J. H. Hood, **88:** 841, 1967
museums
—American Institute of Radiology: interim report 1966 (ed), Maxwell H. Poppel, **88:** 157, 1967

RADIOMERCURY
—brain scanning in ischemic cerebrovascular disease (ab), Albert L. Rhoton, Jr., et al, **88:** 205, 1967
—brain scans of cerebral infarcts with radioactive mercury, Joseph L. Glasgow, Robert D. Currier, Jack K. Goodrich, and Forrest T. Tutor, **88:** 1086, 1967
—radioisotope renography and radioscintillation scanning in diagnosis of homograft rejection (ab), E. Everett Anderson and Richard E. Wilson, **88:** 419, 1967
—reliability of scintillation scanning for detection of intracranial lesions (ab), Morton Schmukler and Joseph B. Workman, **88:** 206, 1967
—renal retention of mercury-203-Neohydrin (ab), Jerold P. Green, **88:** 205, 1967
—scintillation brain scanning in children (ab), Ronald B. David et al, **88:** 849, 1967
—splenic infarction diagnosed preoperatively by photoscanning (ab), Wil B. Nelp and Irvin N. Kuhn, **88:** 1054, 1967
—use of mercury-203 scintiscan in experimental renal trauma (ab), R. Betti et al, **88:** 1057, 1967

RADIO-OXYGEN
—intracavitary administration of radioactive isotopes in control of effusions due to cancer: results in 267 patients (ab), Irving M. Ariel et al, **88:** 850, 1967

RADIOPHOSPHORUS
—intracavitary administration of radioactive isotopes in control of effusions due to cancer: results in 267 patients (ab), Irving M. Ariel et al, **88:** 850, 1967
—polycythemia vera and leukemia—role of radiation treatment; study of 1,222 patients (ab), Baruch Modan and Abraham M. Lilienfeld, **88:** 414, 1967
—prediction of dose of radioactive phosphorus in treatment of polycythemia vera (ab), R. Hume et al, **88:** 637, 1967
—testosterone-potentiated P^{32} therapy in prostatic carcinoma (ab), Robert M. Donati et al, **88:** 850, 1967

RADIORESISTANCE. See Radiobiology, radiosensitivity

RADIOSELENIUM
—photoscanning in diagnosis of carcinoma of pancreas (ab), Antonio Rodriguez-Antúnez et al, **88:** 1213, 1967
—thyroid uptake of selenium-75-selenomethionine: effect of l-thyroxine and thyroid stimulating hormone (ab), E. J. Potchen et al, **88:** 419, 1967

RADIOSENSITIVITY. See Radiobiology, radiosensitivity

RADIOSTRONTIUM
—accretion and exchange of strontium-85 in trabecular and cortical bones (ab), J. K. Gong et al, **88:** 638, 1967
—dose to bone from strontium-90: implications for setting of maximum permissible body burden (ab), F. W. Spiers, **88:** 420, 1967
—preliminary study of human calcium metabolism, using long-term whole-body tracer measurements (ab), Joan E. Harrison et al, **88:** 201, 1967

RADIOSTRONTIUM—*cont.*
—relative toxicities of radium 226, plutonium 239, and strontium 90 for bone tumor induction (ab), G. Hems and R. H. Mole, **88:** 1213, 1967
—results using strontium-90 beta-ray applicator on eye lesions (ab), Hector E. Duggan, **88:** 1057, 1967
—roentgenographic study of terminal pathological changes in skeletons of strontium-90 treated rats (ab), B. J. Hopkins et al, **88:** 851, 1967
—strontium-90 beta irradiation: cataractogenicity and pterygium recurrence: results of postirradiational survey 5 to 6 years after treatment (ab), J. H. C. Hilgers, **88:** 850, 1967
RADIOTECHNETIUM
—cardiac scanning with technetium-99m-labeled albumin (ab), Richard A. Holmes et al, **88:** 1213, 1967
—detection of altered cerebral arterial blood flow using technetium-99m pertechnetate and the gamma-ray scintillation camera, Leonard Rosenthall, **88:** 713, 1967
—evaluation of metastatic thyroid carcinoma with technetium-99m pertechnetate, D. Bruce Sodee, **88:** 145, 1967
—preparation, distribution and utilization of technetium-99m-sulfur colloid (ab), H. S. Stern et al, **88:** 1058, 1967
—quantification of respiratory motion artifact in radioisotope scanning with rectilinear focused collimator scanner and gamma scintillation camera (ab), Alexander Gottschalk et al, **88:** 206, 1967
—radioisotope localization of placenta by Polaroid color scanning (ab), Leon Krohn et al, **88:** 204, 1967
—radioisotope photoscan of liver in differential diagnosis of upper abdominal disease: review of 232 cases (ab), William W. Shingleton et al, **88:** 206, 1967
—radionuclide venography using 99m pertechnetate and gamma-ray scintillation camera (ab), Leonard Rosenthall, **88:** 851, 1967
—spleen scintiphotography with technetium-99m sulfur colloid and gamma ray scintillation camera (ab), Jerry P. Petasnick and Alexander Gottschalk, **88:** 1058, 1967
—study of thyroid physiology utilizing intravenous sodium pertechnetate: preliminary note (ab), D. Bruce Sodee, **88:** 847, 1967
—use of technetium 99m as a clinical tracer element (ab), R. Herbert et al, **88:** 419, 1967
—visualization of lung by methods of scintiphotography (ab), Merle K. Loken and Robert D. Bugby, **88:** 847, 1967
RADIOTHERAPY
See also Cancer, radiotherapy; Dosimetry; Radiations, Injurious Effects; Radiobiology; Sarcoma; Tumors, radiotherapy; under names of diseases, organs, and regions, as Lungs, tumors
—automatic method for identification and localization of interstitial objects, Stephen Balter, Gian D. Ragazzoni and John S. Laughlin, **88:** 152, 1967
—fellowship in therapeutic radiology, **88:** 810, 1967
—general theory of cavity ionisation (ab), T. E. Burlin, **88:** 1210, 1967
—ionizing radiation (bk rev), Severino Perez Modrego and Antonio Plata Bedmar, **88:** 811, 1967
—radiation therapy and chemotherapy (symposium of 5 papers) (ab), B. Choné et al, **88:** 416, 1967
—radioisotopic scanning as aid in planning radiation therapy (ab), M. Tefft, **88:** 847, 1967
—symposium on high-energy radiation-therapy dosimetry, **88:** 596, 1967
—textbook (bk rev), Gilbert H. Fletcher, **88:** 380, 1967
—use of small sealed sources in radiotherapy: report of an IAEA panel (Chm.: M. Cohen, London, England) (ed), Marilyn Stovall, **88:** 154, 1967
RADIOVITAMINS. See Vitamin B_{12}
RADIOXENON
—renal blood flow measurement with xenon 133 at time of operation for renal artery stenosis (ab), David H. Lewis and Sven-Erik Bergentz, **88:** 420, 1967
RADIOYTTERBIUM
—bedside diagnosis of massive pulmonary embolism (ab), Henry R. Shibata et al, **88:** 636, 1967
RADIOYTTRIUM
—hypothalamic change and water metabolism following Y^{90} hypophysectomy in man (ab), Joel F. Habener and Alfred M. Dashe, **88:** 207, 1967
—intracavitary administration of radioactive isotopes in control of effusions due to cancer: results in 267 patients (ab), Irving M. Ariel et al, **88:** 850, 1967
—pituitary ablation by implantation of yttrium-90 seeds (ab), R. C. Bennett and J. D. Harris, **88:** 1059, 1967
—prolongation of renal homograft survival by indwelling beta irradiation (ab), James S. Wolf et al, **88:** 420, 1967
—scanning bremsstrahlung of yttrium-90 microspheres injected intra-arterially, Norman Simon and Sergei Feitelberg, **88:** 719, 1967
RADIOZINC
—radiation and wound healing: influence of dietary methionine and zinc on zinc-65 distribution and excretion in the rat (ab), Kenneth E. Kinnamon, **88:** 1063, 1967
RADIUM

anatomy
—atlas-dens interval (ADI) in children; survey based on 200 normal cervical spines (ab), G. R. Locke et al, **88:** 171, 1967
—normal interpediculate distances (minimum and maximum) in children and adults (ab), Vincent C. Hinck et al, **88:** 192, 1967
—vertebro-medullary interrelations as observed in gas myelography (ab), M. Roth, **88:** 1038, 1967
ankylosis; arthritis
—ankylosing spondylitis: late re-evaluation of 92 cases (ab), T. Douglas Kinsella et al, **88:** 626, 1967
arthritis. See Spine, ankylosis; Arthritis
curvature
—scoliosis secondary to unilateral extraocular muscle paresis (ocular torticollis), D. E. Dietrich and W. J. Slack, **88:** 538, 1967
—straight-back syndrome: radiographic manifestations, Homer L. Twigg, Antonio C. de Leon, Joseph K. Perloff, and Massoud Majd, **88:** 274, 1967
—vertebral genesis of idiopathic scoliosis in children (ab), Folke Knutsson, **88:** 625, 1967
cysts
—comparative study of 2 cystic tumors of spine in children (ab), M. Collard et al, **88:** 627, 1967
diseases
—cervical juvenile osteochondrosis (Scheuermann's disease) (ab), K. Fried, **88:** 626, 1967
—comparison of gas and positive contrast in evaluation of cervical spondylosis (ab), Gabriel Wilson et al, **88:** 626, 1967
—Paget's disease of spine with cord or nerve-root compression: report of 6 cases (ab), J. Ted Hartman and Donald F. Dohn, **88:** 837, 1967

SPINE, diseases—*cont.*
—pathological conditions of spine and their differential diagnosis, Fortschr. suppl. 68, (bk rev), J. E. W. Brocher, **88:** 381, 1967
—re-evaluation of "fish vertebra" sign in sickle cell hemoglobinopathy (ab), Jack Reynolds, **88:** 625, 1967
—roentgenographic features of KS mucopolysaccharidosis of Morquio (Morquio-Brailsford's disease) (ab), Leonard O. Langer, Jr., and Lewis S. Carey, **88:** 408, 1967
dislocations
—treatment of spondylolisthesis by postolateral fusion, resection of pars interarticularis and prompt mobilization of patient: end-result study of 73 patients (ab), Charles Rombold, **88:** 1204, 1967
intervertebral disks
—discography—some interesting cases (ab), W. P. Butt, **88:** 1038, 1967
—herniated lumbar intervertebral disks with unilateral pain and midline myelographic defects: unilateral or bilateral excision? (ab), Harold Haft and Henry A. Shenkin, **88:** 1038, 1967
—progressive vertebral interspace changes following lumbar disk surgery (ab), Robert M. Lowman and Franklin Robinson, **88:** 627, 1967
osteomyelitis
—mediastinal mass caused by vertebral osteomyelitis (ab), Alfred A. de Lorimier et al, **88:** 411, 1967
—vertebral osteomyelitis: diagnostic problem (ab), George B. Ambrose et al, **88:** 837, 1967
pathology
—observations on spine in mongoloidism (ab), William Martel and Jack M. Tishler, **88:** 625, 1967
—roentgenologic changes in spines of concrete workers subjected to action of combined vibration (ab), L. I. Popova, **88:** 192, 1967
roentgenography. See also Spinal Canal Roentgenography; other subheads under Spine
—cineradiograms of cervical spine in diagnosis of soft-tissue injuries (ab), Edward Buonocore et al, **88:** 1183, 1967
tumors. See also Spinal Cord, tumors
—comparative study of 2 cystic tumors of spine in children (ab), M. Collard et al, **88:** 627, 1967
—normal interpediculate distances (minimum and maximum) in children and adults (ab), Vincent C. Hinck et al, **88:** 192, 1967
—polymorphism of myeloma syndrome (ab), G. J. Melot et al, **88:** 625, 1967
wounds and injuries
—trauma of spine and its contents (ab), William Hanafee and Paul Crandall, **88:** 836, 1967
SPITZ, HAROLD B.: Roentgenology of atrial septal defect in the adult (ab), **88:** 824, 1967
SPIVEY, CHARLES G., Jr. See **SCHUB, HERBERT M.**
SPLEEN
cysts
—diagnosis of obscure splenic cyst by aortography. Case report (ab), Charles D. Hafner and Majid A. Qureshi, **88:** 413, 1967
—splenic cyst diagnosed by percutaneous needle aspiration and splenography; case (ab), Clement J. DeMasi et al, **88:** 1208, 1967
effects of irradiation
—thymic and splenic irradiation in treatment of acute lymphatic leukemia (ab), V. J. Fish et al, **88:** 844, 1967
hypertrophy
—spleen scintiphotography with technetium-99m sulfur colloid and gamma ray scintillation camera (ab), Jerry P. Petasnick and Alexander Gottschalk, **88:** 1058, 1967
infarction
—splenic infarction diagnosed preoperatively by photoscanning (ab), Wil B. Nelp and Irvin N. Kuhn, **88:** 1054, 1967
puncture
—vasopressin as adjunct to splenoportography, (ab), Richard F. Edlich et al, **88:** 181, 1967
roentgenography. See other subheads under Spleen
rupture
—roentgenologic evaluation of abdominal trauma (ab), James F. Nelson, **88:** 829, 1967
scanning. See also Spleen, hypertrophy
—splenic infarction diagnosed preoperatively by photoscanning (ab), Wil B. Nelp and Irvin N. Kuhn, **88:** 1054, 1967

—non-tuberculous chest disease found in a mass x-ray survey in Vancouver, B.C. (ab), C. J. G. Mackenzie, **88:** 392, 1967
scanning
—pulmonary oil deposition in patients subjected to lymphography: detection by thoracic photoscan and sputum examination (ab), P. Richardson et al, **88:** 183, 1967
surgery
—disruption of chest wall closure following thoracotomy (ab), Arthur D. Boyd et al, **88:** 608, 1967
tumors
—polymorphism of myeloma syndrome (ab), G. J. Melot et al, **88:** 625, 1967
—thoracic inlet tumors (ab), Norman G. G. Hepper et al, **88:** 174, 1967
—tumors of thoracic skeleton: review of 134 cases (ab), Alton Ochsner, Jr., et al, **88:** 821, 1967
wounds and injuries
—injuries of chest wall, pleura, pericardium, lungs, bronchi, and esophagus (ab), Jack Reynolds and John Thomas Davis, **88:** 822, 1967
—pulmonary parenchymal findings in blunt trauma to chest (ab), Y. M. Ting, **88:** 1191, 1967
THORIUM DIOXIDE
—follow-up study of group of patients who received thorium dioxide for cerebral arteriography, Murray L. Janower, Victor W. Sidel, and M. Jean Flynn, **88:** 1004, 1967
—hepatoma induced by thorium dioxide (Thorotrast) (ab), John S. MacKay and Roderick C. Ross, **88:** 421, 1967
—Thorotrast tumors of kidney; 3 new cases (ab), J. H. Dunant and G. Rutishauser, **88:** 1214, 1967
THROMBELASTOGRAM. See Blood, coagulation
THROMBOCYTES. See Blood, platelets
THROMBOPHLEBITIS
—dissecting popliteal cyst simulating thrombophlebitis (ab), P. Kahler Hench et al, **88:** 411, 1967
THROMBOSIS
See also Embolism
aortic
—thrombotic occlusion of abdominal aorta; associated visceral artery lesions and collateral circulation (ab), Klaus M. Bron, **88:** 181, 1967
axillary
—angiographic features of primary venous obstruction of upper extremity; Paget-Von Schrötter syndrome (ab), Israel Steinberg, **88:** 1194, 1967
caval
—phlebography in post-thrombotic syndrome (ab), S. L. Zgliczynski et al, **88:** 618, 1967
—thrombosis of inferior vena cava and hepatic veins (Budd-Chiari syndrome) (ab), Milton R. Hales and James H. Scatliff, **88:** 1194, 1967
diagnosis
—isotopic detection of thrombi (ab), Irving L. Spar et al, **88:** 202, 1967
hepatic
—thrombosis of inferior vena cava and hepatic veins (Budd-Chiari syndrome) (ab), Milton R. Hales and James H. Scatliff, **88:** 1194, 1967
iliac
—phlebography in post-thrombotic syndrome (ab), S. L. Zgliczynski et al, **88:** 618, 1967
portal
—calcified portal vein thromboemboli in newborn and stillborn infants, William A. Blanc, Walter E. Berdon, David H. Baker, and H. Joachim Wigger, **88:** 287, 1967
—use of direct portography in diagnosis of liver diseases, Karl Fredrik Aronsen and Göran Nylander, **88:** 40, 1967
pulmonary
—idiopathic and thromboembolic pulmonary hypertension (ab), Noble O. Fowler et al, **88:** 172, 1967
—pulmonary veno-occlusive disease (ab), Clement H. Brown and C. V. Harrison, **88:** 399, 1967
—rapid resolution of pulmonary thromboemboli in man; angiographic study (ab), Herbert L. Fred et al, **88:** 399, 1967
renal
—neonatal hyperbilirubinemia and renal vein thrombosis; occurrence in newborn infant of diabetic mother (ab), Thomas R. Walters and Thomas M. Holder, **88:** 195, 1967
—roentgen diagnosis of renal vein thrombosis: clinical aspects (ab), Florencio A. Hipona and Andrew B. Crummy, **88:** 1046, 1967

THROMBOSIS—*cont.*
subclavian
—angiographic features of primary venous obstruction of upper extremity; Paget-Von Schrötter syndrome (ab), Israel Steinberg, **88:** 1194, 1967
—brachiocephalic vascular syndrome associated with cervical rib (ab), J. C. De Villiers, **88:** 623, 1967
THURN, P. See **BELTZ, L.**
——See **BÜCHELER, E.**
THYGESEN, P. See **NIELSEN, ROLAND**
THYMIDINE
—in vitro measurements of human tumor growth (ab), Harold Coons et al, **88:** 1058, 1967
—systematic factor in recovery of rat kidney from x irradiation: thymidine-H^3 incorporation studies (ab), L. W. Wachtel et al, **88:** 422, 1967
THYMOMA. See Thymus, tumors; Tumors, thymoma
THYMUS
—direct action of leukomogenic virus on thymus (ab), Nechama Haran-Ghera et al, **88:** 1064, 1967
—influence of thymectomy and subsequent thymus im-, plantation on leukemia induction in adult C57BL mice by radiation and urethan (ab), I. Berenblum et al, **88:** 1064, 1967
—thymic and splenic irradiation in treatment of acute lymphatic leukemia (ab), V. J. Fish et al, **88:** 844, 1967
tumors
—cases of thymoma at Massachusetts General Hospital (ab), Earle W. Wilkins, Jr., et al, **88:** 843, 1967
—pathogenesis of radiation-induced thymic lymphoma in mice (ab), Richard Siegler et al, **88:** 640, 1967
—thymoma of pleura masquerading as diffuse mesothelioma (ab), Charles B. Payne, Jr. et al, **88:** 821, 1967
THYROID
See also Goiter; Parathyroid
—thyroid antibodies in euthyroid subjects after iodine-131 therapy (ab), J. Einhorn et al, **88:** 418, 1967
aberrant
—subclavian and internal mammary angiography in evaluation of anterior mediastinal masses (ab), Erik Boijsen and Stewart Reuter, **88:** 1184, 1967
abnormalities
—unusual finding—congenital absence of upper pole of lobe of thyroid gland and radioactive scanning (ab), Adolph N. Pellegrini et al, **88:** 1211, 1967
cancer
—evaluation of metastatic thyroid carcinoma with technetium-99m pertechnetate, D. Bruce Sodee, **88:** 145, 1967
—indications for use of I^{131} for treatment of cancer of thyroid (ab), Andrea Sachatschiev et al, **88:** 847, 1967
—induction of benign and malignant thyroid neoplasms in rat; induction of thyroid neoplasms by injection of I^{131} with or without the feeding of diets containing propylthiouracil and/or desiccated thyroid (ab), Stuart Lindsay et al, **88:** 203, 1967
—neoplasms following irradiation of head (ab), Richard W. Hazen et al, **88:** 420, 1967
—radiation therapy in control of persistent thyroid cancer (ab), Glenn E. Sheline et al, **88:** 842, 1967
—radiological investigation of thyroid enlargement (ab), L. Kreel, **88:** 172, 1967
diseases
—low radioiodine uptake and high serum PBI levels from hemorrhage into thyroid adenoma (ab), Harry B. Greenberg, **88:** 1056, 1967
effects of irradiation. See other subheads under Thyroid
function tests
—comparative studies of I^{131}- and I^{125}-labeled triiodothyronine in resin uptake studies (ab), I. S. Jenkinson and J. D. Young, **88:** 203, 1967
—factors influencing dextran-gel filtration of serum and iodine-131-labeled L-thyroxine (ab), Frederick Clark et al, **88:** 418, 1967
—oral contraceptives and thyroid function tests (ab), Dora Winikoff and Kathleen Taylor, **88:** 636, 1967
—radiological investigation of thyroid enlargement (ab), L. Kreel, **88:** 172, 1967
—radiothyroxine turnover study in diagnosis of thyroid disease (ab), Gerald Burke, **88:** 418, 1967
—simultaneous resin uptake studies of labelled thyroxine and triiodothyronine in thyroid disease (ab), James C. Harris and Leo Oliner, **88:** 203, 1967
hemorrhage
—low radioiodine uptake and high serum PBI levels from hemorrhage into thyroid adenoma (ab), Harry B. Greenberg, **88:** 1056, 1967
hyperthyroidism
—atrial fibrillation in thyrotoxicosis treated with radioiodine (ab), J. S. Staffurth et al, **88:** 417, 1967
—development of multiple thyroid adenomata in primary hyperthyroidism in previously irradiated thyroid glands (ab), I. Doniach et al, **88:** 852, 1967
—osteopathy with hyperthyroidism (ab), Graciela T. Meglioli, **88:** 186, 1967
—persistent chromosomal aberrations following radioiodine therapy for thyrotoxicosis (ab), S. J. Cantolino et al, **88:** 1210, 1967
—polyostotic fibrous dysplasia with thyrotoxicosis: report of complete autopsy and skeletal reconstruction (ab), Marc Moldawer and Erwin R. Rabin, **88:** 1036, 1967
—radiological investigation of thyroid enlargement (ab), L. Kreel, **88:** 172, 1967
—treatment of hyperthyroidism with sodium iodide I^{131}: 16-year experience (ab), Mohammed M. Nofal et al, **88:** 1056, 1967
hypertrophy. See Goiter
hypothyroidism
—hypothyroidism after external irradiation to thyroid region, Jerzy Einhorn and Gunnel Wikholm, **88:** 326, 1967
—thyroid nodules as late sequel of radioactive fall-out: in Marshall Island population exposed in 1954 (ab), R. A. Conrad et al, **88:** 421, 1967
physiology
—study of thyroid physiology utilizing intravenous sodium pertechnetate: preliminary note (ab), D. Bruce Sodee, **88:** 847, 1967
scanning
—thyroid uptake of selenium-75-selenomethionine: effect of l-thyroxine and thyroid-stimulating hormone (ab), E. J. Potchen et al, **88:** 419, 1967
tumors
—development of multiple thyroid adenomata in primary hyperthyroidism in previously irradiated thyroid glands (ab), I. Doniach et al, **88:** 852, 1967
—induction of benign and malignant thyroid neoplasms in rat; induction of thyroid neoplasms by injection of I^{131} with or without the feeding of diets containing propylthiouracil and/or desiccated thyroid (ab), Stuart Lindsay et al, **88:** 203, 1967
—low radioiodine uptake and high serum PBI levels from hemorrhage into thyroid adenoma (ab), Harry B. Greenberg, **88:** 1056, 1967
—thyroid nodules as late sequel of radioactive fall-out: in Marshall Island population exposed in 1954 (ab), R. A. Conrad et al, **88:** 421, 1967
THYROIDITIS. See Thyroid, diseases
THYRONINE
—comparative studies of I^{131}- and I^{125}-labeled triiodothyronine in resin uptake studies (ab), I. S. Jenkinson and J. D. Young, **88:** 203, 1967
—simultaneous resin uptake studies of labeled thyroxine and triiodothyronine in thyroid disease (ab), James C. Harris and Leo Oliner, **88:** 203, 1967
THYROTOXICOSIS. See Thyroid, hyperthyroidism
THYROXIN
—factors influencing dextran-gel filtration of serum and iodine-131-labeled *l*-thyroxine (ab), Frederick Clark et al, **88:** 418, 1967
—radiothyroxine turnover study in diagnosis of thyroid disease (ab), Gerald Burke, **88:** 418, 1967
—simultaneous resin uptake studies of labeled thyroxine and triiodothyronine in thyroid disease (ab), James C. Harris and Leo Oliner, **88:** 203, 1967
—thyroid uptake of selenium-75-selenomethionine; effect of *l*-thyroxine and thyroid-stimulating hormone (ab), E. J. Potchen et al, **88:** 419, 1967
TING, Y. M.: Pulmonary parenchymal findings in blunt trauma to the chest (ab), **88:** 1191, 1967
TISHLER, JACK M. See **MARTEL, WILLIAM**
TISSUE
See also Radiobiology
—method to experimentally determine equilibrium proton spectrum existing in tissue during irradiation with high-energy neutrons, Norman A. Baily and R. Ted Nichols, **88:** 151, 1967
TITUS, CHARLES O. See **GOULD, HOWARD R.**
TITUS, JACK L. See **STEWART, JAMES R.**
TLD-100. See Radiobiology, dosage studies
TOBACCO
—coronary angiographic findings in correlation with age, body weight, blood pressure, serum lipids, and smoking habits (ab), Kim Cramér et al, **88:** 395, 1967

TUBERCULOMA. See Brain, tuberculoma; Tumors, tuberculoma
TUBERCULOSIS
BCG vaccination
—bacterial metastasis following BCG vaccination (ab), Alf Wallerström and Herbert Enell, **88:** 1036, 1967
TUBERCULUM SELLAE MENINGIOMA. See Meninges, tumors
TUBES. See Roentgen Rays, apparatus
TUMORS
See also Cancer; Sarcoma; under organs and regions
—calcifying collagenolysis (tumoral calcinosis) (ab), J. G. Thomson, **88:** 624, 1967
—tumoral calcinosis (ab), P. E. S. Palmer, **88:** 624, 1967
adenoma. See Pituitary Body, tumors; Sella Turcica; Thyroid, tumors
alveolar-cell. See Lungs, tumors
angioma. See also Tumors, hemangiopericytoma
—angio-osteohypertrophy syndrome: Klippel-Trenaunay-Weber syndrome (ab), Fred Brooksaler, **88:** 623, 1967
—cystic lymphangioma of breast: first roentgen description, Christian Hessler, **88:** 135, 1967
—ordinary varicose veins as expression of congenital hemangioma (ab), Edward A. Edwards and John F. O'Connor, **88:** 400, 1967
angiomyolipoma. See Tumors, lipoma
angiosarcoma
—angiographic study of angiosarcomas (ab), M. Collard et al, **88:** 1195, 1967
astrocytoma
—analysis of brain scan patterns in cerebral ischemia and astrocytoma (ab), William J. Heiser and James L. Quinn, III, **88:** 1058, 1967
chemodectoma
—chemodectoma of vagus nerve, Konrad Kircher, **88:** 94, 1967
cholesteatoma
—tomography in cholesteatoma of temporal bone; correlation between standard roentgenographic examinations and tomography (ab), S. Brünner et al, **88:** 605, 1967
combined therapy
—combined therapy with 220 kV roentgen and 5-hydroxytryptamine or cyproheptadine in rat hepatoma (ab), Donald B. Cater and Constance A. Grove, **88:** 423, 1967
craniopharyngioma. See Pituitary Body, tumors
desmoid
—desmoplastic fibroma vs. desmoid tumor of bone: 2 cases illustrating problem in differential diagnosis and classification, Robyn Hardy and Harold Lehrer, **88:** 899, 1967
diagnosis
—angiography in tumor diagnosis and management: review of 93 cases (ab), Carlos M. Chavez and James D. Hardy, **88:** 197, 1967
ependymoma
—angiographic and surgical aspects of spinal cord vascular anomalies, Hillier L. Baker, Jr., J. Grafton Love, and Donald D. A. Layton, Jr., **88:** 1078, 1967
fibroma
—desmoplastic fibroma vs. desmoid tumor of bone: 2 cases illustrating problem in differential diagnosis and classification, Robyn Hardy and Harold Lehrer, **88:** 899, 1967
—fibrous cortical defect and nonossifying fibroma (ab), Peter G. Bullough and Jon Walley, **88:** 410, 1967
—intramural fibroma of the heart (ab), Alexis G. Hoen and Eugene J. Ellis, **88:** 1027, 1967
ganglioneuroblastoma
—factors producing spurious obstruction of inferior vena cava in infants and children with abdominal tumors, Walter E. Berdon, David H. Baker and Thomas V. Santulli, **88:** 111, 1967
glioma. See Brain, tumors
growth
—in vitro measurements of human tumor growth (ab), Harold Coons et al, **88:** 1058, 1967
gutter. See Hernia, diaphragmatic
hamartoma. See Tumors, lipoma
hemangioma. See Tumors, angioma
hemangiopericytoma
—angiographic appearance of intracranial sarcomas, J. Robert Cassady and Harvey I. Wilner, **88:** 258, 1967
—giant benign hemangiopericytoma functioning as an arteriovenous shunt (ab), Stanley Gensler et al, **88:** 1193, 1967
hepatoma. See Liver, tumors
in children. See also under organs and regions
—bone and microcirculatory changes in child with benign pheochromocytoma, Melvin H. Becker, Walter Redisch, and Edward J. Messina, **88:** 487, 1967
—factors producing spurious obstruction of inferior vena cava in infants and children with abdominal tumors, Walter E. Berdon, David H. Baker and Thomas V. Santulli, **88:** 111, 1967
—mediastinal mass caused by vertebral osteomyelitis (ab), Alfred A. de Lorimier et al, **88:** 411, 1967
—pathology of rhabdomyosarcoma in children (ab), Carolyn C. Rigby, **88:** 197, 1967
—primary reticulum-cell sarcoma of stomach in 8-year-old child, Edward R. Savolaine and Albert Thibeaux, Jr., **88:** 778, 1967
—radiologic and clinical evaluation of pheochromocytoma in children: report of 6 cases, Alfred L. Weber, Murray L. Janower and N. Thorne Griscom, **88:** 117, 1967
—radiotherapeutic management of testicular neoplasms in children, M. Tefft, G. F. Vawter, and A. Mitus, **88:** 457, 1967
—rhabdomyosarcoma of genitourinary tract (ab), D. Innes Williams, **88:** 196, 1967
—tumors of sympathetic nervous system in children: appraisal of treatment and results, Carlos A. Perez, Teresa Vietti, Lauren V. Ackerman, Mark D. Eagleton, and William E. Powers, **88:** 750, 1967
lipoma
—renal hamartoma (angiomyolipoma): its angiographic appearance and response to intra-arterial epinephrine, Peter J. Palmisano, **88:** 249, 1967
—renal hamartomata—case report and review (ab), Wallace J. Landgren, **88:** 1043, 1967
—renal sinus lipomatosis (ab), Andrew B. Crummy et al, **88:** 838, 1967
localization
—fluoroscopy technic for tumor localization (ab), E. Eugene Covington, **88:** 1209, 1967
lymphangioma. See Tumors, angioma
lymphoma
—angiographic appearance of intracranial sarcomas, J. Robert Cassady and Harvey I. Wilner, **88:** 258, 1967
—angiography in tumor diagnosis and management: review of 93 cases (ab), Carlos M. Chavez and James D. Hardy, **88:** 197, 1967
—clinical and lymphographic study of Brill-Symmers' disease: observations in 30 cases (ab), J. D. Picard et al, **88:** 1031, 1967
—factors in development of metastases after irradiation of L-1 lymphosarcoma, M. R. Sikov, B. B. Chapman, and J. E. Lofstrom, **88:** 1007, 1967
—in vitro reactions of lymphocytes from normal mice and from viral and x-ray-induced lymphomas (ab), Lloyd M. Elrod and Robert Schrek, **88:** 1064, 1967
—lymphogranulomatosis: results of radiation therapy with different technics (ab), Hans-Joachim Herms, **88:** 414, 1967
—lymphography in lymphoma, with particular reference to Hodgkin's disease, J. W. Davidson, M. Saini and M. V. Peters, **88:** 281, 1967
—malignant lymphoma of colon; study of 69 cases (ab), Adam R. Wychulis et al, **88:** 621, 1967
—pathogenesis of radiation-induced thymic lymphoma in mice (ab), Richard Siegler et al, **88:** 640, 1967
—postlymphangiogram film as indicator of tumor activity in lymphoma (ab), Carl E. Fabian et al, **88:** 1031, 1967
—primary pulmonary lymphoma; review of literature and 2 case reports (ab), Ferid Ehrenstein, **88:** 608, 1967

TUMORS, lymphoma—*cont.*
—primary reticulum-cell sarcoma of stomach in 8-year-old child, Edward R. Savolaine and Albert Thibeaux, Jr., **88:** 778, 1967
—radiation therapy for intracranial lymphoma, Robert H. Sagerman, James R. Cassady, and Chu H. Chang, **88:** 552, 1967
—study of thoracico-abdominal lymphatic system. I. Lymph node perfusion technic. II. Lymph node perfusion by overfill technic (ab), August P. Hovnanian et al, **88:** 1196, 1967
melanoma
—radiotherapy for malignant melanoma of choroid (ab), H. B. Stallard, **88:** 1051, 1967
meningioma. See Meninges, tumors
mesothelioma
—thymoma of pleura masquerading as diffuse mesothelioma (ab), Charles B. Payne, Jr., **88:** 821, 1967
metastases. See also Lungs, tumors
—factors in development of metastases after irradiation of L-1 lymphosarcoma, M. R. Sikov, B. B. Chapman, and J. E. Lofstrom, **88:** 1007, 1967
myeloma
—intravenous urography in multiple myeloma (ab), Cecil Morgan, Jr., and William J. Hammack, **88:** 628, 1967
—multiple myeloma involving gastrointestinal tract (ab), William B. Goldstein and Nathan Poker, **88:** 620, 1967
—polymorphism of myeloma syndrome (ab), G. J. Melot et al, **88:** 625, 1967
myxoma
—primary myxoma of right ventricle; clinical, hemodynamic and angiographic findings before and following operative treatment (ab), Andrew G. Morrow et al, **88:** 394, 1967
—successful removal of right atrial myxoma mistaken for liver and pericardial metastases (ab), George R. Holswade et al, **88:** 612, 1967
neurinoma. See Nerves, acoustic
neuroblastoma. See also Tumors, ganglioneuroblastoma
—mediastinal mass caused by vertebral osteomyelitis (ab), Alfred A. de Lorimier et al, **88:** 411, 1967
